The County Committee have prepared a list of Districts which is left at the office of the Morning Post, where the tickets will be furnished for each district. The Democracy will attend to sending for their tickets and seeing that they are properly distributed, so that on election day no one may be without a ticket.

THE SUNDAY QUESTION.

It seems to us impossible that any one of

Republicans, by their action in Massachusetts, has said that the adopted citizen is not be regarded as an equal, and his franchises have been most unjustly curtailed. Here, in setts, has said that the adopted citizen is not to be regarded as an equal, and his franchises have been most unjustly curtailed. Here, in he fought then, would consume more space have been most unjustly curtailed. Here, in Allegheny county, where the body of the people are in favor of being left to the enjoyment of their own opinions regarding the proper observance of the Sabbath: the Republicans have taken ground against this right and have, through the Gazeto, insulted the large German population by designating their movements as "a trick." The Gazeto in the Maxican heart, and by common consent he was styled the Marion of their movements as "a trick." The Gazeto is a subject upon which our German fellows citizens have for years maintained and expressed a decided opinion—an opinion in which they have been sustained by the libreral/minded citizens of all classes, and essential shaughter upon the chair and provided and one of the ways, achieved a glorious triumph.

In that battle General Lane performed aimst which they have been sustained by the fiber all minded citizens of all classes, and especially by the Democratic party. The candidates upon our ticket—the Senator and Assemblymen especially, and all the rest American army which General Lancecommand. Assemblymen especially, and all the rest will aid them—are favorable to such a modification of the Sunday Law as will permit every citizen to act according to his own conscience, without interfering with the rights or the enjoyment of others. This is right. On the contrary the candidates upon the Republican ticket all oppose such a such as the Republican ticket all oppose such a modification. The Germans, the Irish, and the native born citizens, who belong to the working classes, to whom many enjoyments working classes, to whom many enjoyments are necessarily denied, will not sustain men who would vote to deprive them of the great practical advantage which Passenger Railroads furnish to them and their families skillful manuvres defeated as the day of the lattle, and his most skillful manuvres defeated as the day of the lattle.

A WORD TO DEMOCRATS.

Although not, perhaps, in themselves so important as others which have preceded them, the elections of 1859, possess an unusual degree of importance, because of the effect degree of importance, because of the effect which they will have upon the Presidential canvass next year. In order to enter with energy and determination upon the great contest of 1860, it is necessary that every Democratic of a united and harmonious organization, will work incalculable good in the future. All softs of political elements have ever contended against the Democratic party, the only common principle which joined them together being an earnest desire for the spoils. General Lane descended from revolutionary ncestors, was born in the State of North Car dina, was reared and educated in Kentucky nigrated to Indiana, and settled on the banks of the Ohio, in the county of Vandenburg : where, without the advantitious aid of fame. or fortune, he worked his way from an numble plough boy, and flatboatmar on the Mississippi, to the high position of a distinguished soldier and statesman. At the age of twenty-one, when barely eligible, he was elected a representative in the Legislature of Inians, and continued to represent his people, at intervals of one or two years, either in the House or the Senete for reach House or the Senate, for nearly a quarter of a century. Possessing a clear, strong and prac-tical mind, he took a liberal and correct view state or National interests, which he enforced with an eloquence and power, which placed him in the front of

In order to do this, every Democrat must vote—must lend his aid to get out the voters—and must vote the whole ticket. The Democratic party is the only one which stands by the doctrines of equal rights to all, the Union and the Constitution. In the end its principles must and will triumph over factions and unprincipled opposition.

By the bye, why do not the Auditors lay before the people of the county the annual statement of the receipts and expenditures for the last year? It has nover occurred within our recollection that the publication of this statement has been so long delayed as it has this year. What is the matter? Is there something to be kept dark until after the election.

AN IMPORTANT DISCOVERY Furnaces, Foundries, Blacksmiths

Copper and Tinsmiths, &c. MOST SIMPLE AND EXPEDITIOUS MOST SIMPLE AND EXPEDITIOUS
mode of purifying Coal and Orea and one destined
to effect a great revolution in the Iron business, has been
discovered by Mr. JESSE BURROUGHS, of this State.
Mr. Burroughs claims that Coal de-culpherized by his
process will give more heat than four times the amount
of Coke, and leave no cinders. That the Ore smelted
with this Coal will yield its full complement of Iron, which
will be completed free from all foreign matter, and be
softer and tougher than Iron made by any other process.
The cost of applying the process is very trifing, and
the smelting can be done in any style of furnace now
in use.

In a smelting can be done in any style of induce how in use.

In Blacksmiths' forges it will make hard or brittle iron soft, malicable and tough.

In Copper and Tinsmithing, it will hold the solder to the irons better, and give more heat than any other coal. It is also much cheaper than Charcoal.

Mr. Burroughs and his Agent, Mr. Storer, are stopping for a few days at the ST. CLAIB HOTEL, and are prepared to sell State, County, City or Furnace rights to this discovery. THORO' BASS .- First steps in thoro

THALBERG says.—They are beyond comparison (hour I have ever seen in the United States, and will compare favorably with any I have ever known." pare favorably with any 1 have ever known.

GUSTAVE SATTER say:—"The opinion which I expressed three years ago, has been more than confirmed to me, by the continued use of them, viz: "That for rotume and pure quality of tone, with nicety of articulation, they are unequalled."

[From the National Intelligencer, Washington.]

"They can safely bear comparison with instrument from any part of the world, in point of tone, strength and elasticity of touch." [From the New Orleans Picayune.] "For excellence of material, elegance of finish, and faithfulness of workmanship, and above all for volume and variety, mellow sweetness, brilliancy and permanence of tone, they are unequalled."

[From the Family Journal.] "The peculiar musical qualities belonging to the Chickering instruments, are a full, musical, rich and powerful tone, free from any wooden, noisy, loudness of sound, so disagreeable to the sensitive musical ear. They have also an easy, even and pleasant touch, and will keep in tune better than any Pianos known.
