

THE RETURN IN ALLEGHENY COUNTY

We have the returns from all the districts for the State ticket. The totals for this year are as follows: ...

Republican loss so far as heard from 3270. The six districts not heard from will not vary in the results of the returns, the majority of Coulter over Blackmer for Treasurer, 1782; the majority of Miller over M'Clowry for District Attorney in 2304; the majority of Mahon over Gillmore for Assistant Judge in 1780; the majority of Irish over M'Kee for State Senate in 1656; and the majority of Cochran over Wright in 2031. The returns from the country districts, being imperfectly included in these additions.

The above figures show the general nature of the vote. We deem it unnecessary to encumber our columns with tables until we have full vote officially from the Return Judges, who meet to-morrow.

THE STATE

We give the returns of the election, so far as received, under our telegraphic head. The vote out has been small over the State. The indications are that the Republican party has carried the State by a small majority, it is impossible to give the result with certainty.

THE VOTE OUT

As far as we have learned from the counties of the State, the vote has been generally as follows: Beaver, Butler, and in fact all the North-Western and Western sections of the State, have been overwhelmingly for the Republican party. The same has undoubtedly been the case all over the State.

DEATH OF JAMES O'HARA SCULLY.

For a week past the hands of death have been busy in the immediate circle of our friends and acquaintances. One after another has dropped from the stage of life, in the fullness of manhood and in the prime of life.

The Michigan Copper Mines. We learn that the mines situated on the Everson Bluff adjoining the Minnesota River have been recently discovered.

DAVID C. BRODERICK was born in the city of Washington, in December, 1818, or 1819, consequently at the time of his death, he was about 40 or 41 years of age. He was of Irish parentage. His father was a stone-cutter, a well-to-do man who had the contract for supplying stone for building the present Capitol and worked upon the pillars of the chamber in which his son afterwards sat.

Anecdote of Washington. In 1744 he was stationed at Alexandria with his regiment, the only one in the colony, which was then a frontier post.

THE SHOOTING OF SENATOR BRODERICK. The late overland mail from California brought a unfortunate news of intelligence, being nothing else than the death of Senator David C. Broderick, who was killed in a duel on the 13th ult., by Judge David S. Terry, Chief Justice of the Supreme Court of the State.

Who will Move the Croquet? A correspondent of the Terre Haute (Ind.) Express, writing from Chicago, throws some light on this vexed question.

Lady No. 2 holds under four tons of hay, seven dollars and a half per ton; 47 50. She stands erect, as stately as I see Norwegian women every day with a load of kindling wood on their heads.

Lady No. 3 stands in bath and the current dog yoked with a train in which is exhibited one ton of stores \$30-35.

Lady No. 4 has a male colt, suspended from her horns, which she carries with her every day.

Lady No. 5 has a male colt, suspended from her horns, which she carries with her every day.

Lady No. 6 has a male colt, suspended from her horns, which she carries with her every day.

Lady No. 7 has a male colt, suspended from her horns, which she carries with her every day.

Lady No. 8 has a male colt, suspended from her horns, which she carries with her every day.

Lady No. 9 has a male colt, suspended from her horns, which she carries with her every day.

Lady No. 10 has a male colt, suspended from her horns, which she carries with her every day.

POPULAR ESSAY

DISEASES INCIDENT TO TRADES AND OCCUPATIONS.

It is our purpose to write, as briefly as possible, concerning the diseases incident to certain occupations, including their causes, symptoms and mode of cure. We do this in plain language, and in a straightforward way, so that every tradesman, mechanic, or laborer, who reads this tract, will be enabled to recognize the disease which he is suffering from, and to take the proper measures to cure it.

The diseases incident to trades and occupations are of various kinds, and are often of a serious nature. It is therefore, of great importance, that every tradesman should be enabled to recognize the disease which he is suffering from, and to take the proper measures to cure it.

The diseases incident to trades and occupations are of various kinds, and are often of a serious nature. It is therefore, of great importance, that every tradesman should be enabled to recognize the disease which he is suffering from, and to take the proper measures to cure it.

The diseases incident to trades and occupations are of various kinds, and are often of a serious nature. It is therefore, of great importance, that every tradesman should be enabled to recognize the disease which he is suffering from, and to take the proper measures to cure it.
