

The Daily Post.

MONDAY MORNING, MARCH 4.

A UNION MEETING.

We have not forgotten that some weeks since a citizens' meeting in City Hall, which assembled at the call of a large number of our most respectable citizens, and in which we were broken up and dispersed by a mob, composed principally of young, noisy Republicans. Nor are we unaware that there are in the city grog shops and saloons enough to keep up the supply of the right sort of rowdies to break up another similar meeting. Yet we are satisfied that if another meeting were called by the same men who called the former one it would not be disturbed. Not because the rowdies are fewer, but because they are more numerous and more organized. We expect to see them in the next issue of our paper.

THE INBAUGURATION.

Today Abraham Lincoln will assume the duties and responsibilities of the Presidency. In the world which we inhabit, it is from which, if he is a patriot, his views must be taken. At Washington, things will appear to him in a different light from that which he presented at Springfield, and he will speak and act as the representative of a nation, and not of a party. The whole country is watching with the most intense interest for the indication of his future policy which his inaugural address will give. We expect to see it before our readers in the next issue of our paper.

THE CABINET.

The following is announced as the latest cabinet for the incoming administration:

Secretary of State	Mr. Seward
Secretary of the Treasury	Mr. Chase
Secretary of War	Mr. Cameron
Secretary of the Interior	Mr. Schuchert
Attorney General	Mr. Bates

MR. MITCHELL.

After an absence from Pittsburgh of over eight years, Mr. James E. Mitchell will commence an engagement at our theatre tonight. He is without rival as a general comedian, and has hosts of friends in this city who will give him a warm welcome back to Pittsburgh.

Warlike Preparations in the South.

The Southern press are full of items concerning the warlike preparations in Missouri. There are three powder mills in Pickens District, S. C., turning out some fifty kegs a day. A firm in Savannah has contracted for 3,000 shot and shell for the Southern States. In Mobile, Ala., a company of seventy recruits, for the Southern Army, passed through August, Ga., on the 23d inst. from Tennessee. For the regular army, of Georgia, recruiting is going on all over that State. In Athens a company of forty had been organized to the close last week.

Mason and Dixon's Line.

In conventional usage, "Mason and Dixon's line" is the boundary line between the free and the slave States. Concerning the origin of the name, the following are the historical facts:

On the 4th of August, 1793, Thomas and Richard Penn, and Lord Baltimore, agreed with Charles Mason and Jeremiah Dixon, two mathematicians and surveyors, to mark the line between Maryland and Delaware, and Pennsylvania and the other States. The line was surveyed and marked in the month of November following, and the work was completed in the month of December. The line was named after the two surveyors, and the name "Mason and Dixon's line" has since been applied to the boundary between the free and the slave States.

THE FLOYD ACCEPTANCES.

General Cushing has delivered an opinion on the claim of parties from New England who hold the bills of exchange of Russell, Myers and Wadell, accepted by Gov. Floyd, as Secretary of War. The bills of exchange were issued in 1862, and were payable to the order of the Government for cotton, and the liability of the Government for their payment has been clearly laid down by three decisions of the Supreme Court. Judge B. W. Davis of the United States Circuit Court for the Eastern district of Pennsylvania, in giving an opinion on the Bessemer case, said: "If by a Cabinet officer" accept the draft of a contractor absolutely, the United States is bound to pay it in full to the same extent, and on the same principles which apply to a bill of exchange drawn on and accepted by a private person. So the Supreme Court have settled the law in the Bessemer case, and the Government is bound to pay the bills of exchange held by the parties named in this article."

MR. LINCOLN'S INAUGURAL.

A special dispatch to the New York Evening Post of Saturday afternoon, says that Mr. Lincoln's inaugural address is not long. It will be revised up to the latest moment, providing Congress shall continue in session on Monday. No advance copies have been sent out.

THE SENTIMENTS EXPRESSED IN THE DOCUMENT ARE PRAISED BY MR. LINCOLN.

Mr. Lincoln has known views on the question of secession, against the right of secession, and against the expediency of calling a National Convention of the States, for the purpose of effecting a satisfactory adjustment of the pending troubles.

HARRISBURG LETTER.

Harrisburg, March 1, 1861. The Legislature adjourns to-day to meet again on the 12th inst. This adjournment is produced by the desire to see President Lincoln inaugurated on Monday next. The Legislature adjourns to-day to meet again on the 12th inst. This adjournment is produced by the desire to see President Lincoln inaugurated on Monday next.

THE INBAUGURATION.
