WE call the attention of our readers to an article advertised in another column, called Bloon Foon. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is food for the blood, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he retains. Let all those, then, who are suffering from poverty, impurity, or deficiency of blood, and consequently with some chronic disease or aliment, take of this Bloon Food and be restored to health. We notice that our druggists have received a supply of this article, and also of the world-renowned Dr. Excor's Invariant Connut., which every mother should have. It is said to contain no paregoric or opiate of any kind whiteyer, and of course must be invaluable for all infantale complaints. It is also said that it will allay all pain, and soliten the guins in process of teething, and at the same time regulate the bowels. Lot all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved. Having purchased the entire interest of my late partners in the firm of RAILEY, M'KAIN & Co., I am INTERM JAMEN'M BAILEY.
