

THE CENSUS SHOWS.

Some queer facts are shown by the census tables. It has been a popular fallacy to suppose that the free New England States were more numerous in the matter of population than the slave States, but now the census shows that the New England States have fallen behind during the past ten years compared to the Southern States, yet the census shows that the New England States have fallen behind much more than the Southern States have not increased so largely as the Northwestern States, yet they have increased more than those that Eastern States were the Republican party furnished most. A few comparative figures show the difference between the six New England States and the seven seceding States. The former, with a population of 3,135,231 in 1850, has increased but 407,185 during the ten years, or a little less than thirteen per cent, while the seven States of Alabama, Georgia, Louisiana, Mississippi, South Carolina and Texas, with a population of 4,967,731 in 1850, has increased 1,137,101 during the ten years, or thirty-two per cent. This is a difference between the two sections: one has increased but thirteen per cent, while the other has increased thirty-two per cent. New England loses four Congressmen—one in Maine, one in Vermont, one in Massachusetts, and one in Rhode Island—and gains none. The seceding States also lose four Congressmen—one in Alabama, one in Georgia, and two in South Carolina, while at the same time they gain three—one in Louisiana and two in Texas. So their actual loss is but one, while that of New England is four.

If therefore, the fact is to be used against the South that it has not gone so far as some other sections of the country, the same argument can be used with much better effect against New England. The news from Washington is decidedly warlike. The opinion seems to prevail that it will be impossible to avoid hostilities with the Confederate States much longer. Peace on one side and war on the other cannot be maintained. But peace under any circumstances is preferable to civil war. If the administration undertakes hostilities until every chance of compromise and amicable adjustment is exhausted, it will be condemned even by its own party. The result will be permanent division, which the Republican party long ago decided to avoid. Why should Republicans insist upon a war when a war worse than that which the seceding States have declared is a means of restoring the Union? Peace! Peace! Peace! Can it be said that the Republican party is in a position to advise a war? Why are the Northern Republicans bent on the destruction of the country? What fatal error in judgment and in statesmanship is precipitating the Administration into the horrible abyss of civil war? A statement now put into circulation from Fort Sumter or Fort Pickens or even from Fort Mifflin, would surely lead to what is even worse than the secession that Mr. Lincoln condemned and deplored. What ever degree of criminality the President may attach to secession, none surely attaches to those who would lure, if possible, the seceded States back to their former allegiance, or if that is impracticable, would do nothing to erect an insuperable barrier against such return. The first news of a determination taken by the Administration to send men and arms to Fort Sumter will be regarded by the entire population of the border States as a declaration of war against the seceding States, and they will at once take their position alongside the Confederate States, and in strict alliance, offensive and defensive, with them.

INSPECTORS. We have got a Whisky Inspector, it seems, thanks to the Republican Legislature and the complaisance of the Governor, to inspect the restaurants of Council Bluffs, who undertook to lock the stable door after the horse was stolen. Hereafter the City Guesser has performed the duties of Inspector, and the appointment of an additional one must either increase the revenues of the city or increase the expense of the Whisky Inspectors. But there is a dearth of offices to satisfy the hungry Republicans, and besides the Whisky Inspector, a Leather Inspector is proposed. Do the leather manufacturers and dealers desire such an officer? There is also a bill before the Legislature for the appointment of an Inspector of stationary steam boilers. Go on gentlemen Republicans, if you believe in no hereafter.

COUNTY BORDERS. As we learn from an article in the Commercial Journal, a new office, or rather two offices, have been created by the Republican County Commissioners. The Journal reports that two paid agents of the Commissioners are in Harrisburg, endeavoring to defeat the Reform Bill. This is a measure which the people of the county, without distinction of party, desire the same financial reform of the present system of our county affairs. The County Commissioners, under the present system, enjoy a vast amount of power and patronage, which they are very loath to surrender. We hope the Legislature will not permit the Reform Bill, which the people want, and which has been so strongly recommended, to be defeated by the opposition of paid bidders, nor by the introduction of any half-way measures. Let us have a real reform—not a glance from bait to horse.

STAND FIRM. The Gazette is again appealing to Mr. Lincoln to plant his foot firmly, and take the line. Unless the Gazette can get into the Union, it will be forced to leave the Chicago office, and adopt some compromise similar to that of Mr. Crittenden and Mr. Bigler. Mr. Lincoln cannot stand firm. His party has been so long in the reconstruction Mr. Lincoln has no place to stand. Concession is another name for madness.

WARRICK'S SILENCE. By spending nearly as much as he has been spending on the white glue, then ironing it on the wrong side,

HOWLING WITH RAGE.

The disunion sectionalists of the city of St. Louis have been badly beaten in the recent election, and the Republicans who thought more of their party than of their change in the city. They were the change the last election in that city. Their distinguished Democratic speaker from this city was grossly attacked in the public newspapers and came near being mobbed for making a Democratic speech. Now, the Democrats have carried the city. We make the following extract from the St. Louis Democrat, the Republican organ, to show how it feels and speaks in view of the defeat of sectionalism in a city where, above all others, sectionalism should never have obtained a foothold. In announcing the result of the election the Democrat says: It has often been our privilege to announce a defeat. It becomes our duty to chronicle a success. The result of the election of the 4th of March, 1856, is a triumph for the Republican party. The result of the election of the 4th of March, 1856, is a triumph for the Republican party. The result of the election of the 4th of March, 1856, is a triumph for the Republican party.

Republican Overthrow. It is amusing to witness the contortions and gyrations of the demagogues and wretches of the Republican party, as the result of Monday's election in Ohio. That party met with the most signal defeat, being routed and overthrown in almost every locality from which we have any returns. The Cincinnati Gazette attributes the signal defeat of the Republicans in the State to the fact that the demagogues and wretches of the party, who acted as the leaders of the party, were not only routed, but they were routed in a manner that will be long remembered. The Cincinnati Gazette asks, and then answers the question, what was the immediate cause of the Republican defeat in Cincinnati, that "Fort Sumter did it."

Down-Hearted. Mr. Lincoln's election has produced a depression of spirits. He justly complains that Congress adjourned leaving him almost powerless to act. His only objection to calling them together now is the fact that they will come here and reconvene in the same promise measure, or undertake to investigate some unknown mystery, or quarrel over the tariff, instead of transacting the business actually necessary to carry on the government. The Appropriation for New Mexico. A difficulty is said to exist in regard to the appropriation for the construction of a new steam engine. It is that the money was appropriated for the fiscal year ending last July, and that it cannot be used until the next fiscal year. This is one of the reasons why an appropriation of Congress cannot be presented. The Administration is crippled in a similar manner by other appropriations.

THE CONGRESSIONAL DISTRICTS. The Legislature is about appropriating the Congressional districts for the next session. The arrangement as reported seems to be a singular one, and the people should examine it carefully, and see that there is no gerrymandering for partisan purposes. A Hair of the Same Dog. It is argued in high official circles here that the best policy for the administration is to inaugurate a war with Mexico, or Mexico, as the best means for averting internal strife. This is the Homophagical doctrine. "Similia similibus curantur."
