For a few days past there has been a painful and growing impression in the public mind, that the heads of the government are not doing all which can be do: all which they ought to do to meet the present emergency. In New York citathe papers complain greatly of the supposed inefficiency of the government.

Now we are not afraid that Gen. Scott will not prove equal to the emergency, if he is not trammeled by weak and fearful counsellors at Washington. The man whose orders for the battle of Molino del Rey were ficer from Harrisburg and report to him. a history of the battle after it was fought, certainly has a pretty clear head and a sound judgment in military matters. But one man cannot attend to everything at the same time, and as this war is upon us, let every State and every city prepare for it at once. We hope the Legislature will not lose one at least 50,000 troops for Pennsylvania.
