STAND BY YOU'R GOVERNMENT.

We desire to interpose our protest against the murmurings of the zealous but loyal, as well as the loud voiced clamor of the reckless portion of the community now directed towards the legitimate administrators of our Government. There is much, very much mischief in the swelling tide of complaint which does not appear to be directed so much against the plans of the government in this crisis, as against the want of public official information as to what those plans are. The people are restive, anxious and eager to know what is going to be done.—
