

MARYLAND AND HER NEUTRAL DODGE.

Although the time for discussion is past, it should be remembered that the prob-

of the bill is now in the hands of the conference committee. The Illinois

lines in the first section were adopted by the House. To this the Senate disagreed,

deeming it unconstitutional, and on motion of Mr. Penny it was struck out in the Senate

and the conference committee, explaining the required security to mean a person

possessed of real or personal estate in the county, deemed sufficient by the Court.

The amendments were printed in the bill and this amendment, the conference committee

has to decide. In the first section of the bill, immediately preceding the last proviso, the Senate

on motion of Mr. Penny, inserted an amendment, which has been agreed to by the House.

It is now in the hands of the conference committee, and it is to be expected that the bill will be reported in a few days.

THE STAY LAW.

After sundry amendments, as already noted in the Post, made in the House, the stay law act went back to the Senate,

and further amendments in that body were made. The bill was then returned to the House,

which agreed to all the Senate amendments except one, and upon this one a committee of conference was appointed,

which has not yet reported. We are indebted to Mr. Penny for a copy of the bill as now amended.

WAR ITEMS.

The Legislature of Tennessee, after passing an ordinance of secession, without the shadow of authority on the 27th inst., appropriated

the million dollars for the defense and armament of the State. The amount taken

from the State Treasury is \$1,000,000. The late seizure of government funds in

Nashville by order of Governor Harris, of Tennessee, was intended to have been made public.

Important from Cairo.

The Chicago Tribune has the following account of an important interview between Colonel Tilghman, commander of the Kentucky forces,

and Colonel Prentiss, commander of the Federal troops encamped at Cairo, Illinois, the mission of Colonel Tilghman seems to have been a peaceful

intended to cultivate friendly relations with the Federal commander. Colonel Prentiss, however, distinctly apprised his visitor

of that he expected an attack from the Tennessee rebels and was ready to fight.

Major McKim and J. H. Gordon, two members of the Maryland Legislature, were chased around town and finally treated when they arrived at their homes in Cambridge, on the 13th inst., on account of their secession proclivities.

The resignation of Lieutenant Hanson, of Sherman's battery, is authoritatively denied. It is an act of honor on the part of the Confederate States to have their capital

of Richmond, Va., captured by the Federal forces. The Montgomery papers take the capital will be removed to Richmond in less than a week.

The battle of Louisiana, consisting of five companies, 164 Richmond on Wednesday, 8th inst. for service. Their destination was not known.

The Richmond journals do not chronicle the arrival of the 10th Virginia in the city, for the reason as they say, that they do not wish to give information that will be beneficial to the enemy.

From a source in Virginia, and the Richmond papers, it is learned that they cannot procure any other way to take them from their present position in the city.

THE PAY OF THE ARMY.

Sir: I have seen in some of the city papers what I esteem an erroneous statement regarding the pay of the officers and soldiers of the regular army.

As these volunteers are to be mustered into the service of the United States, and become for the time being a part of the regular army, it is fair to assume that their pay in one case will be the same as in the other.

Now, let us see what the pay is of such officer and soldier. What I here state is not intended to matter in fact, and cannot be contradicted. In stating the pay, the

substance of the matter is in fact, and cannot be contradicted. In stating the pay, the substance of the matter is in fact, and cannot be contradicted.
