Telegraph and Railroad Facilities. The G vernment appreciates the value of the telegraph for facilitating their operations. A DARING AND DANGEROUS line has been built from the Navy Yard and Arsenal to the War Department and two lines run from the American Telegraph office to the same building. An impromptu office has been partitioned off on the second floor, and two

Colonel Thomas A. Scott, who now has charge of the military roads of the Govern-ment, has his office in the rooms of the Secretary of War. The time tables are in the hands of A. Carnegie, the Superintendent of the Western Division of the Pennsylvania Central Railroad. Harry Gray, formerly conductor on the same road, is stationed at Annapolis Junction, and has charge of the running of the trains to Annapolis. He was elected Mayor of the village last week.

K. O'Brien, formerly operator at Harrisburg, is assistant to Superintendent Grey, and also

has charge of the telegraph at that point.— David Strouse, formerly Secretary of E. Lewis, Superintendent of the Pennsylvania, Raile road, is the confidential agent of the Government, to manage the telegraph lines. He has entire control of the wires now in use and be-

ing built south of here.

Mr. Wilson, from Harrisburg, is chief operator in the main coffie at the War Department No operators are employed by Superintendent Strouge, except those whose loyalty and integrity have never been doubted and whose experience is such that they can write rapidly by sound. More operators will be needed, as the army advances into Virginia, as all the old operators are said to be infected.

Parson Brownlow's Daughter. Knoxville, Tenn., brings intelligence of affairs | knewn to his fellow sufferers the means of cure. in that city. He informs us that 2500 secession troops are stationed there, for the express last week for no other offence than speaking he conceives to be invaluable, and he hopes every surwords of loyalty to the Federal Government. ferer will try his remedy, as it will cost them nothing The house of the celebrated bold hear ed and | and may prove a blessing. ut spoken Parson Brownlow is the only one in Knoxville over which the Stars and Stripes are floating. A few days ago two armed Secessionists went, at 6 o'clock in the morning, to
haul down the Stars and Stripes. Miss Brownlow, a brilliant young lady of twenty-three, saw them on the plazza, and stepped out and demanded their business. They replied they had come to "take down them d—n Stars and She instantly drew a revolver from her side, and presenting it, said, "Go on, I'm good for one of you, and I think for both!" 'By the looks of that girl's eye she'll shoot,' one remarked "I think we'd better not tr

it; we'll go back and get more men," said the "Go and get more men," said the noble lady They returned with a company of ninety armed men, and demanded that the flag should

house was filled with gallact men, armed to the teeth, who would rather die as dearly as poss ble than see their country's flag dishonore the accessionists retired. When our informent left Knoxville, the Stark and Stripes still floated to the breeze over Par-

on Brownlow's house. Long may they wave Whiskey vs. Bullets.

An old soldier offers the following excellent advice to volunteers: "My boys! If any among you have been in the habit of drinking much whisky, quit it!—
If you continue to drink hard, you are dished your more-soler comrads will bury you. In the service you have to undergo, whisky will kill you with more certainty than the ball or kill you with more certainty than the ball or shell. If you are exhausted after a long march a jorum of strong tea and a chunk of stale bread will do more good than all the whisky that was ever concocted. The boatmen of Canada will tell you that. Coffee is not good; but a jorum of afrong tea will check a tendency to dysentery and bowel complaint. Soup is good. Much meat is had in hat weather: the ioad to carry—home and sinew make the soldier, not blood. A light diet may go hard on men of strong sppetite; but he that lives soberly and lightly will recover of his wounds quicking and trouble the hospital less should be sh

that drinks hard and gorges himself incessan In his message at the commencement of the session of the Montgomery Congress, Mr. Day's stated that the Confederation then had 16,000 men en route for Virginia." He reand as Fiorida and Texas have sent .none the number can only be made out by an average of over 8000 men from each of the remaining five States. Louisians has to this time, soording to the New Orleans Delta, sent on South Carolina has sent but two regiments. There is no reason to believe that any

the States which have since joined the Confed-North Carolina has sent, besides a few Oherokee Indians, two regiments to the line of Virginia, at Weldon. In addition to these there are bands from Maryland, Kentucky and the city of Washington, co-operating in what is called the defence of Virginia.

The Charleston Mercury calls the Yankee troops now threatening the South "tin ped-dlers" "It is true the Yankees have generally, in their wisits South, peddled tin, but we guess they mean to peddle lead this time. — Louisville
