THE PUBLIC HEALTH -Notwithstanding the amount of "truck" which fills up our markets-green apples, cabbage, etc., there is very little sickness in our midst. This is not owing, however, to the sanitary measures adopted, but simply from the fact that as business is very dull, the circulating medium is scarce. This should not make us careless, and the filthy alleys should be put in cleanly order. Pig pen nuisances, through the instrumentality of some of our efficient police officers, have been in a great many instances abated, but there are still but in the course of time, and depending some filthy places which endanger the public health and should be looked after .--Many of our housekeepers throw all their ate and cyanate of potssh-bodies which gar bage in the streets in direct violation of the nearly inert. Cysnide of potassium, city ordinance a reprehensible practice therefore, on account of the changes just guarded.

FORT PITT GUARDS.-The companies recruiting for the Pittsburgh and Philadelphia regiment are rapidly completing ciple, (essential oil) is converted into bentheir quota. Two companies are recruiting zoic acid. Similar accidents may happen, in this city, and one in Sharpsburg. The baud at Sharpsburg have all enlisted, and will constitute a part of the band of the regiment. Lieut. Collier of the 12th Regiment is expected home in a few days to take command of this company. Colonel Williams had dispatches from Washing-ton, ordering him to fill up as rapidly as possible The regiment will be immediately mustered into service and placed upon duty. They will rendezvous near Philadelphia, and all wishing to serve in this corps should join immediately. The Wilkins Guards and Osptain Kopps' company are recruiting for this regiment at the Custom House building.
