Under the proviso in the consolidating acts the plaintiff's judgment must be regarded and treated as a judgment against the Pittsburgh, Fort Wayne and Chicago Railroad Company, and his right to seize and sell the property levied on is the same as it would be if his judgment and execution were directly against this Company. Is the property then liable to seizure and sale on a judgment and execution of this Court while it is in the possession of the receiver appoint. ed by the Circuit Court?

The case of Wiswall vs. Sampson 14, How. U. S. 52, is decisive of this question. It was there ruled that where real estate is in the custody of a receiver, appointed by the Court of Chancery, a sale of the property under an execution issued by virtue of sjudgment at law, is illegal and void, and passes no title to the purchaser. A mortgages of judgment ereditor having a prior lien on the property, if desirous of enforcing it against the estate after it has been taken into the care and custody of the Court by the appointment of a receivthe Court by the appointment of a receiver, must first obtain leave of the Court for this purpose, and the Court will permit him to be examined pro interesse suo and direct a master to inquire into the circum, stances, whether his judgment is an existing unsatisfied demand, or as to the priority of the lien, &c., and take care that the fund be applied accordingly. Where the law gives priority of lien it will be protecprior lies on the property, is not without ure to day, previous to disbanding. They remedy, as the case cited clearly shows. Sr. Louis, July 19.—The following GOOD FOR LECTURERS proclamation has just been issued from Brigadier General Pope: ST CHARLES, Mo., July 19. TO THE PEOPLE OF NORTH MISSOURI By virtue of the proper authority, I have assumed command in North Missouri. I appear before you with a force strong enough to maintain the authority of the government, and too strong to be resisted by any means in your possession usual in warfare. Upon your own assurances that you would respect the laws of the United States and preserve the peace, no troops have hitherto been sent to your section of country. The assurance of the last ten days, however, have plainly exhibited that to fulfil your pledges, and the government has therefore found it necessary to occupy North Missouri with a force powerful enough to impel obedience to the laws. As soon as it is made manifest that you will respect its authority and put down unlawful combinations against it you will be relieved of the presence of the forces under my command, but not until then I, therefore, warn all persons taking up arms against the Federal authority, who
