Gen. Buckner's Proclamation to the People of Kentucky.

Louisville, Sept. 21.—The following proclamation has just been received:—To the People of Kentucky in the Millor of Kentucky have been faithless to the will of the people. They have endeavored to make your gallant Slates a fortress in which, under the guise of neutrality, the armed forces of the United States might secretly prepare to subjugate alike the people of Kentucky and the Southern States. It was not until after months of covert and open violation of your neutrality, with large encampments of Federal troops on your territory, and a recent official declaration of the President of the United States not to regard your neutral position, coupled with a well prepared scheme to feize an additional point in your territory, which was of vital importance to the safety and defence of Tenof the United States not to regard your neutral position, coupled with a well pre-pared scheme to seize an additional point in your territory, which was of vital im-portance to the safety and defence of Ten-

nessee, that the troops of the Confederacy, on the invitation of the people of Kentucky, occupied a defensive post in your State. In doing so the commander appropriate the commander of the comm State. In doing so the commander and nounced his purpose to evacuate your territory simultaneously with a similar movement on the part of the Federal forces, whenever the Legislature of Kentucky shall undertake to enforce against both the state of the telligerents the strict neutrality which they have so often declared. I return amongst you, citizens of Kentucky, at the head of a force, the advance of which is entirely Kentuckians. We do not come to molest any citizens, whatever may be his nolitical opinions. Unlike the agents of the Northern despotism who seek to reduce us to the condition of dependent vassals, we be-lieve that the recognition of the civil rights of citizens is the foundation of constitution-al liberty and the condition of constitutionl liberty, and that the claim of the Presiat neerly, and that the claim of the President of the United States to declare martial law, to suspend the privileges of the writ of habeas corpus; and to convert every barrack and prison in the land into a bastile, is nothing but the claim which other tyrants have assumed to subjugate a free people. The Confederate States occupy Bowling Green as a defensive position. I renew to pickges of the commanders of renew to pledges of the commanders of other columns of Confederate troops, to retire from the territory of Kentucky of

the same conditions which will govern their movements I further give you my own assurance that the force under my command will be used as aid to the government of Kentucky in carrying out the strict neutrality desired by its people, whenever they undertake to enforce it against the two undertake to enforce it against the two belligerents alike.
