ATURDAY MORNING::::::OCT. 5,

The Prothonotaryship. The contest for the Prothonoraryship is be expected. It is believed, however, that Mr. Finney has the inside track. His unloubted fitness for the office, coupled with his unquestionable popularity, will secure him a large vote—so large, indeed, that his friends, even now, entertain no doubt whatever of his election. A nother great point in his favor is the interest evinced in his behalf by the members of the bar.— They make no secret of their belief that as Prothonotary Mr. F. would be the right man in the right place, and they are therefore doing all in their power to secure his election. He has all the qualifications to fill the office with credit, and we feel perfectly satisfied that, should the people call him to the position, he will give the largest measure of satisfaction in the discharge of its duties - Chronicle

The evidence taken in his case shows that he had not only conceived the purpose of treasonable co-operation in the State of Maine, with the insurrectionary citizens arrayed in arms in other States for the overthrow of the government and the Union, but that he had even gone to the extreme length of getting up an unlawful force to operate in Maine against the lawful action of the State and of the federal government. It appears that he is too intelligent to misunderstand the legitimate tendency of his criminal act. He cannot be released.
