THE VIOLENCE OF FACTION.

The course pursued by the Republican leaders, and especially the old Abolition portion of them, since the inauguration of President Lincoln, is to us quite inexplicable. They have become so fanatical and foolish upon the single idea of negro emancipation, that reason and common sense appear to have utterly forsaken them.

SLAVERY AND THE WAR.

The rebels regard slaves as property. So does the decedent of the Supreme Court. Why should they be held more sacred than other kinds of property? Why should it be esteemed as wrong to confiscate a negro to confiscate a cow, or a horse? Nobody would think of blaming the Government for seizing all the cotton or sugar or the rebel citizens, if thereby an effective blow could be struck at the great conspiracy, why should it be blamed for "seizing" a plantation of darkeys if they stood in the way?

Andy Johnson and the Tennessee

Richardson papers of the 10th and 11th inst. have been received by the Washington Republican. We submit a number of interesting extracts. The other day, when I stood in the presence of two Tennesseans, ex-founders of the Union, I was struck by the contrast between the two.

NEW ADVERTISEMENTS.

PITTSBURGH OPERATING INSTITUTION. There will be a special meeting of the Pittsburgh (Grand) Association of the Grand Opera on FRIDAY EVENING, October 13th, at 7 o'clock. It is the earnest desire of the officers that the members will take sufficient interest in the welfare of the institution to be present.

THE NEW YORK TRIBUNE.

The New York Tribune, the powerful leader of this extreme faction, announced a few days since, its anxiety for several Bull Run disasters, providing they would have the effect of uniting the Northern people in favor of immediate emancipation. This is only intended, or at least calculated to prolong the war. Such a course must alarm the Union men of the South and, in self-defense, drive them into the rebel cause.

THE FLYING DUTCHMAN.

The flying Dutchman, a vessel owned by Prince Jerome, previous to his yacht getting up steam for France, offers to tempt a peg to hang a project on, and Lower Canada is sure to figure on the chart of annexable territory. The cry of "No War" may, however, be raised to object to him at present, but even though the ghost be conjured of him who sealed the Heights of Abraham, there is not a particle of sympathy between Imperial France and the habitants of the Lower St. Lawrence.

THE VOTE OF THE VOLUNTEERS.

The Philadelphia Press and the North American are endeavoring to assuage the vote of the cast at the late election by the Pennsylvania volunteers. This was not thought of by these journals until after it was ascertained that it required the volunteer vote to elect a portion of the Democratic ticket of Philadelphia county.
