OFFICIAL PAPER OF THE CITY

THURSDAY MORNING, NOV. 7, 1901

CITY MATTERS.

Supreme Court.

Wednesday, November 6—Present all the Judges.

Shooka vs. Armstrong county. Argued by Golden for Plaintiff in error, and by Calhoun contra.

In the matter of the sequestration of the Northern Railroad Company, Indiana—Non prof.

Martha Waterson vs. The Commonwealth. Argued by Golden for Plaintiff in error, and by A. M. Brown, contra.

Reynolds vs. McVey, Armstrong. Argued by Fulton for Plaintiff in error, Calhoun, contra, non heard, and thereupon judgment affirmed.

Johnston vs. Nichols. Argued by Johnston for Plaintiff in error, and by Nichols, contra.

Whites vs. The Pennsylvania Railroad Company. Argued by White and Foster for Plaintiff in error, and by Scott for Defendant in error.

District Court.

Before Judge Hampton.

Wednesday, November 6.

The case of *Waterson vs. Robert Ekin et al.*, already reported, went to the jury in the afternoon. No verdict.

FOUND DEAD—FATAL ACCIDENT.—Yesterday morning, at an early hour, the body of a laborer named George Moran, was found lying on the low path of the canal, close to the bridge over Sandusky street, in the Fourth Ward, Allegheny.

The head and arms of the deceased were under water, at the side of the canal, while the body was stretched across the low path, and the supposition was that the deceased had turned off Sandusky street, for the purpose of entering the low path, and had fallen, when he missed his footing and fell to the ground, a distance of eight or ten feet.

Mrs. Moran was about fifty years of age, and resided with her family on Liberty street, Allegheny. He worked at Fulton's foundry, in this city, and it is said he left for home at nine o'clock Tuesday evening. The body was removed to the residence of the family, and Coroner Bostwick was summoned and held an inquest. There were no indications of violence and the jury found a verdict of death from causes unknown.

BLANKETS, &c., FOR THE SOLDIERS.—So far the ladies of this county have done nobly in furnishing articles necessary for the comfort of our troops. Jacob Glosier, Esq., Government Agent here for the collection of these supplies, informed us yesterday that he had just shipped two large dry goods boxes, closely packed, containing blankets, quilts, comforters, pillow, &c., to Quartermaster General Miles, to be distributed among the Pennsylvania Volunteers. He had three boxes nearly ready, which will be forwarded to day. The contributions are from the First and Seventh Wards, Pittsburgh, and from First and Allegheny. The ladies of the Third Ward, Pittsburgh, sent several packages of similar articles, directly to Colonel Rowley's regiment. We are glad to see such a noble interest in this matter, and are confident that Pittsburgh will do her duty in this, as in every other patriotic movement.

DR. REFINERY EXPLOSION.—A correspondent of the *Chronicle*, writing from Franklin on the 1st instant, says:—"This evening, after supper, an explosion occurred in the distillery of the parts of the town, and immediately thereafter, Colonel Hoover's refinery, near the lower end of the town, was blown up in flames. As any attempt at extinguishing the fire was deemed futile, attention was turned to the saving of the planting mill in the Allegheny bridge, which was adjoining. The wind blowing the fire away from them saved them, although the heat was so intense that the quickened air which were thrown on them were dried up in a few minutes. The same was grand in the extreme, reminding one of the destruction of the Duponts works. One man named Arnot, chief refiner, was so badly burned that it is feared he cannot live. From one hundred to three hundred barrels of oil, part refined, were destroyed. Loss estimated at \$5,000.

NEW EXPANSION MAIL CAR.—Franklin Wright, Esq., the efficient Superintendent of the Allegheny Valley Railroad, has placed on the road a splendid new expansion mail car, built at the shop of the company, which, for convenience, style and comfort, is not surpassed on any road in the country. The apparatus is completely fitted up with desks, drawers, stoves, &c., in a style that does credit to the architect and builder.

RECAPTURE OF A FUGITIVE.—Mr. Roberts, who was a member of the Wheeling Convention, and afterwards taken prisoner while on his return home, by the party of Kanawha county, Va., and sent to Richmond, has been released, or exchanged for a prominent secessionist, who was held as a hostage at Wheeling. Mr. Roberts complains of his treatment while in Richmond, and says he was kept in close confinement for over two months, with iron upon his wrists and ankles.

FATAL ACCIDENT.—A most distressing accident occurred in Jefferson county the other day, through which one man lost his life and another was dangerously injured. Two men, named Sebastian Christ and Oliver Vanburke, were riding down a hill near Brookville in a wagon, when the horse ran away. Both were thrown out and terribly injured. Vanburke died the same night, but Christ is still alive and will probably recover.

OPERATIONS OF THE MINT.—The gold and silver deposits of the United States Mint in Philadelphia for the month of October, amounted to \$8,996,914.98. The collars for the month was \$5,779,969.41 as follows: Gold collars, \$1,400,000; silver collars, \$2,379,969.41; copper \$5,000. The total number of pieces struck for the month was 2,351,882.

BURGLARY.—The residence of John Stewart, near East Liberty, was entered the other night and about eighty dollars in money, a silver watch and some articles of clothing carried away. The money belonged to the school fund of Collins township, and so anxious is Mr. Stewart to bring the thief to justice that he offers a handsome reward for his detection.

DROWNED.—Dick Dennison, a colored deck hand on the Leclair, lying at Kitzbuhler, in the darkness on Saturday night last, stepped from the boat and was drowned. Every effort was made by those on the boat to rescue him, but in the darkness it was found impossible. He was borne off by the rapid current, and sank.

RAILROAD ACCIDENT.—The train due at Harrisburg from the West on Monday at 1:30 P. M. was detained several hours by running over a horse on the track near Milton. The engine and several cars were thrown over an embankment, and a number of persons severely, though not fatally, injured.

FOOT CRUISED.—A man named Simmel Hays, employed on the Pittsburgh, Erie and Chicago Railroad, had his ankle terribly crushed at Slatkewitz, Tuesday, from being caught between the bumper, while attempting to jump from the train in motion.

INFANTS.—A good infant was found in a compost in Indiana brought last week. The coroner's jury found that it had been born alive and came to its death by reason of neglect on the part of its mother, Nancy Gelbalt.

LATEST BY TELEGRAPH.

Last Night's News up to Two O'clock.

News from Washington.

WASHINGTON, Nov. 6.—Richmond papers of last Monday, November 4, have found their way here. They contain no mention of any landing of the federal forces on the Southern coast, but it is evident that the whole South is very anxious regarding the destination of the naval expedition.

Jeff Davis has appointed Friday, the 10th of November, as a day of fasting, humiliation and prayer in the rebel States. The dispatch dated Savannah, November 24, says there was a light below that city, originating in consequence of the federal fleet's arrival in the harbor, and that the rebel frigate left for Charleston.

A gentleman who saw Gen. Beauregard at Gordonsville, Va., on Monday, says that the general's resignation of Gen. Wool does not seem to be well founded, as the latest dispatches received from him at the War Department manifest no intention of resigning. He doubts that Brigadier General Mitchell, of Cincinnati, has tendered his resignation.

The "Stepping Stones," recently purchased by the government in New York, ran the blockade about 11 o'clock last night, and was captured on the Southern coast. The "Stepping Stones" is similar in construction to the rebel "George Page," and is about the same as a steamer from three to three and a half feet of water. She was thus enabled to beat the Maryland shore in passing the batteries. She brought either six Contrabands, who were picked up by the Balley in the Lower Potomac. The "Stepping Stones" had fourteen contrabands on board at Cedar Point and about 80 were sent to Old Point a short time since from the floating hospital in the Bay. She is a great suffering in the want of food, clothing, stores, &c. There is a small number of rebel soldiers on board, a few hundred yards north of the old one. Two shells were fired from it yesterday, apparently to try the range only.

There are indications at Mathias Point that the rebels are at work there, possibly in preparing to land. The government has arranged with the United States steam and equip. corp. to transport to the coast of the rebel States, and to furnish fuel for service within the State for immediate defence, or during the war.

The rebels are at work there, possibly in preparing to land. The government has arranged with the United States steam and equip. corp. to transport to the coast of the rebel States, and to furnish fuel for service within the State for immediate defence, or during the war.
