CITY MATTERS. The Volunteers' Relief Fund.

Our article on this subject In Wednesthese guas.' day's issue has called forth a communica-

tion from a gentleman of Lawrenceville, in reference to the money subscribed by our citizens for the purpose of fitting out the three months' voluntcers. He subscribed \$100 to this fund, with the understanding (as he state;, and as was then generally supposed), that the money adection between this city and Clevelaud at Wellsville, by reason of the transfer of vanced would be reimbursed by the State vanced would be reimbursed by the State authorities, when it was to be added to the will certainly lecture to night, and be turday, Mr. Isaac Biggs and son left home fund for the relief of volunteers' families.

Many percepts whom we know subscribed to the fund with the same understanding; and our correspondent very properly calls our attention to the matter and desires light upon it.

The amount of money raised and expended by the committee (appointed by the Committee of Public Safety and consisting of R. Miller, Jr., B F. Jones and contest are, that the votes of the soldiers M. K. Moorhead) in preparing our three (which, if thrown out of the count, would number of Harpers' New Monthly Maga-months' soldiers for the field was in the elect McCarrell) given cut of the county number of Harpers' New Monthly Maga-neighborhood of \$13,000. This sum, it and State are unconstitutional; and furwas confidently believed by the committee, would so shop as the State should make the necessary appropriations, be repaid, and consequently they feit justified in giving subscribers to the fund the same urance received by our correspondent. viz: that the money, after being used for the conjoment of the sold ors, should be applied to the relief of their families. They

lieved that the money expended would be reimbursed before other fund then beings raised for the maintenance of soldiers' families were exhausted, when it might be applied as designed. Bat unforeseen obstacles, for which the

committee were not accountable, arose, and the money has never been returned, nor any portion of it. The reasons for

MB. MACKETT'S BENEFIT -The present engagement of Mr. Hackett has been this are various: First-A portion of the money was expended for officers' uniforms, which cannot be returned, as the regula tions make no allowance for officers' clothing which they must themselves furnish from their own abundant pay. Second-The soldiers drew the rations of clothing for the last time, and a varied bill is preto which they were entitled without regard to what was supplied by our citizens sented for his benefit, when he personates of the quality of which there was complaint) and consequently the State authori, ties cannot pay for what they have been obliged to duplicate. Third-The State authorities, though disposed to reimburse this money, do not feel warranted in taking it from the \$500,000 appropriated for

the equipment of our troops, without legal authority, lest other portions of the State, whose troops were sent into the field unmiformed, should make complaint. e shippod that comes forward next week. be able to add about two hundred tons.

Before this money can be applied to the second use a special act of the Logislature will be necessary. The committee have made every effort to secure its return, without being obliged to "lobby it through," but without success-and this meens to be the only course left.
