GENTLEMEN: - The minutes containing your resolutions on the condition of the country, which you directed to me, cois. has been submitted to the President of the United States. I am instructed to express to you his great satisfaction with those proceedings which are distinguished equally by their patriotic sentiments and purely christian spirit. It is a just tribute to our system of government that it has enabled the American people to enjoy, unmolested more of the blessings of Divine Provi dence which affect the natural condition of human society than any other people ver enjoyed together with a mor lute degree of religious liberty than before the constitution of that great governmen had ever been hoped for among men. Toverthrow of this government migh therefore justly be regarded as a calamity not only to this nation, but to mankind. The President is assurred of of public vir-
