Important from New York.

New York, Dec. 13.—It is freely resported among commercial men here that as number of letters of marque are held by parties in this city which have been obtained from the Moxican government. These letters grant the privilege of praying upon the commerce of England, France and Signin, which governments are about in-accurating a war upon-the Mexicans.

It also appears that visceds are fitting out at this pirt to sail under the Mexican diag, and entitled to bring prize santo neutral ports. This proceeding appears to be perfectly justifiable in view of the decision of the British government, which allows the pirate Narnvills to ff. out at Southampton for the purpose of preying upon the commerce of America.
