We see that half-a-dozen, or more, engineers have recently gone out the road, and naturally suppose that they have done so for the purpose of commencing work on the line. The company will probably build one or two grain elevators at this city, during the next season, and is not finished by next fall, we shall be deceived more than we expect to be. It now boasts several warehouses, three refineries, and about as many hotels, stores, and groceries, as its older sister, Franklin. We noticed that highly commendable improvements in the streets and sidewalks had been made since a former visit. Wer it not that a part of the road between this place and that is almost impassable, there would be a much larger trade between the two points. As it is, we counted 200 teams in the city and on the way there.— Steps are being taken by the citizens to have the place incorporated as a borough. The enlargement of their privileges will give them an opportunity of ascertaining whether any of their number are willing to serve the public in the capacity of the tice of the Peace, Burgess and Town ALL STYLES,
