PROPOSITION FROM THE BONDHOLDERS, The committee of bondholders, from Philadelphia, who consulted with our County Controller, and several prominent citizens some time since, have forwarded their reply to Mr. Lombert. It will be remembered that a proposition was made by Mr. Lombert that the old bonds be surrendered, and new ones issued at eighty per cent. of their face, with five per cent. interest, and having thirty years to run, the accrued interest to be thrown off. This he committee say they cannot accept and offer the following instead:—The entire back interest, amounting to \$700,000, to be thrown off, provided that the county agrees now to take a fresh start, and bind itself to pay six per rent. interest on the original debt—\$2,800,000—from this date The annual interest on this would be \$188,000, and at a tax of one per cent. would produce \$280,000. it is held that ald be amply sufficient not only to pay this interest, but also to meet the or inary expenses of the county. The committee, in submitting their proposition, state that though they bave not referred to the city specially in their comnunication, the basis here proposed would be regarded as a criterion for the settle-
