FOR AMERICANS No more English or French rub-bish, made to sell, but not to keep time. WHY SHOULD AN AMERICAN buy a foreign Watch, when he can get a better one at home?

Why should an American needlessly enrich oreign Watch manufacturers at the expense of our own artisans? Why should an American send gold to England and France, our covert but bitter enemies, when gold is so much needed at home ! Why should an American buy an imported

Watch, which, in nine cases out of ten will cost more to keep in order for one year, than its original price, and which was never intended to reep time under any circumstances ! 35 Why should Americans not patronise more gen erally American manufactures, and thus emanci pate themselves from the thraidom of English spital, French fashions and Continuated gew The American Watch Company's Watches are

articularly adapted for soldier's use being most ubstantially made, and not liable to get out o order, either in marching riding or fighting. Sold by all respectable Jewellers in the loys Wholesale orders should be addressed
