TUESDAY MORNING, MAY 20, 1903.

CITY AND HARBOR INTELLIGENCE.

The Fort Pitt Works—Heavy Ordnance.

We are fully satisfied that if it were possible for every man who is fighting against the Government to come North and see our immense resources and the general prosperity of the Northern States while subduing the rebels, the war would be ended.

The entire force of this immense establishment has, for a year past, been employed on government work, providing heavy ordnance and projectiles of all kinds.

We noticed the casting, some five or six weeks since, of another of those monster fifteen-inch guns and still a fourth was cast last week.

The work of casting these huge weapons will be a matter of more interest here, as we understand the firm have a contract to furnish the government with fifty.

In addition to the large guns there are now in the lathes at the works twelve-inch inch guns and still a fourth was cast last week.

The Ordnance Bureau of the Navy department has entered into a contract with this firm to furnish the government with still larger dimensions than any heretofore.

To enable the proprietors of this vast foundry to fill the orders of the Government more rapidly, they are erecting another large brick building on the end of the pier to keep the work in progress.

The movement of local passengers was 222,023 eastward, and 234,017 westward. The revenue from local passengers, which was \$438,329 48, shows an increase of \$47,899 76, of which \$29,892 94 was in the eastward, and \$17,996 82 in the westward.

The movement of the foreign travel was, eastward 45,574 passengers, and westward 48,223 passengers. An increase of 12,139 foreign passengers is shown and a proportionate increase in the revenue.

The eastward movement was, of local freight, 88,445 tons, and of through freight 27,498 tons. The movement westward was of local freight, 78,819 tons, and of through freight 124,166 tons.

The American Bishops of the Catholic Church who will be present at the approaching convocation at Rome, to participate in the solemnities incident to the canonization of the Japanese martyrs, are as follows: O'Connor, of Pittsburgh; Wood, of Philadelphia; Purcell, of Cincinnati; Foley, of Newark; Fitzpatrick, of Boston; Timon, of Buffalo; Langhille, of Brooklyn; McLaughlin, of Hartford; and many others.

The piece, when given by Manager Henderson, with Maggie Mitchell as the star, was universally acclaimed and was glad to see its reception announced.

We are glad to note that W. H. Whitney, Esq., who during the past three years has been in the habit of performing his duties as a Notary Public in Allegheny County, has been re-appointed.

CONSTITUTIONAL.

Justice Strong, of the Supreme Court, has given his opinion in the case of Byers and Davis, two parties arrested in Philadelphia and committed on suspicion of being pickpockets, deciding that the recent Act of Assembly, authorizing the commitment of such persons for ninety days is constitutional and remaining the prisoners, who had counsel and had the constitutionality of the act fully argued at Harrisburg.

At a meeting of the citizens of the Fifth Ward on Monday evening, John Ralston, Esq., Presiding, and Alderman Taylor, acting as Secretary, the following persons were appointed to collect money to be expended for the relief of our soldiers, wherever they may be: 1st precinct, T. S. Blain, John McGregor and Wm. Lutton; 2d precinct, Joseph Irwin, Francis Felix and R. J. McConen.

Death of Wm. B. Barroll. Wm. B. Barroll, Esq., former of the Express office in this city, died on Sunday last at Lima, Allen county, Ohio, where he was employed as station agent for the Pittsburgh, Fort Wayne & Chicago Railway Co. Mr. B. was in the prime of life and a man of family. He has a host of friends in the city.

It is reported that the military, guarding the Baltimore & Annapolis route, will be withdrawn. It could be destroyed in twenty-four hours. The hostility of the residents of the valley of Virginia to the Government is implacable.

BY LAST NIGHT'S MAIL.

FROM INDIANAPOLIS. 300 of Morgan's Cavalry of United States, who were captured by the rebels, were sent to the United States by the last night's mail.

Two hundred of Morgan's rebel cavalry, recently captured by Gen. Dumont, passed through this city en route for Columbus, Illinois, have arrived.

The last of Indiana's sick, now remaining, were removed from Pittsburgh Landing this morning, on the steamer Crawford.

A rebel prisoner named Daniel Webster killed a Sergeant named James M. White, of the same regiment, Friday night, at Camp Morton. Webster was handed over to the civil authorities, and is now in jail.

The Superior arrived here from Tennessee this evening, Pat on seven hundred sick soldiers at Henderson. Returns to-night.

The House Naval Committee have decided to report a bill to establish ten grades of rank in the Navy, to-wit: Admirals, Commodores, Captains, Lieutenants, Commanders, Lieutenants, Commanders, Lieutenants, Passed Midshipmen, Midshipmen and Naval Cadets.

The Senate Committee on Public Lands have agreed to report back Senator Wade's bill, donating 50,000 acres of land for each Senator and Representative to every State which provides a college for the benefit of agricultural and mechanical arts.

The Battle of Corinth. A general advance of Halleck's grand army took place on Saturday. Several severe skirmishes took place in front of Gen. Sherman's Division, which occupies the advanced position. The rebels were driven from a strong position, after several fighting, into fortifications. We lost 44 killed and a number wounded. The rebels lost 41 dead on the field and over 100 wounded, doubtless carrying off a great many. The dead rebels were shot in the rear by our troops, were several superior in rank to any used by our troops. It is likely, however, that they are extensively supplied with such arms.

The news indicates an immediate battle. Our troops slept on their arms expecting a battle Sunday morning, and it is possible that a general engagement was fought yesterday. It seems that nearly all great battles are fought on the Sabbath day, whether Commanding Generals so will it or not. It is almost impossible that 200,000 great armies should remain in such proximity till Monday without collision, most certain to bring on a general engagement. We look for important news from Corinth within twenty-four hours.
