The country is full of these military genluses; it is absolutely groaning beneath the weight of their ponderous conceptions. In their estimation General Scott is a fogy: McClellan a mere charlatan, and Halleck a great humbug. They talk oracularly about energy and resources, although they never exhibited enough of either to make a subsistence, and who would now be upon the poor list, of their respective districts were it not for some mysterious influence by which they have been quartered upon an indulgent government.

Our own highly respectable profession, has inflicted upon the country a horde of these babbling military stratagists. The country abounds with them; their homilies have embarressed our Generals and disgusted the people.
