Broad Top Coal Trade. The amount of coal transported over the Huntingdon and Broad Top Mountain Railroad, during the week ending Wed nesday, May 21, was 3,180 tons; during the same period last year, 5,362 tons; decrease, 2,182 tons. The decrease was doubtless owing to the partial destruction of the Stonerstown bridge, which we noticed last week. The amount shipped previously during the present year, is 119,669 tons, whilst during the same time last year, the amount shipped was only 58,203 tons, showing an increase of 61,460 tons; or more than double the trade of the same period, last year.

We stop an instant, put on our water-proofs, start again, and, urging our horses to their utmost speed, plunge through the rain. We rush past sentry, vidette, and signal man, unheeding any challenges they might give. Shoulder straps and head-quarter passes are our passports through what would otherwise be great difficulties. An hour's ride brings us to the outposts, and when we rein in our panting horses we find the storm passed over, its clouds hanging like a black pall behind us. A regiment of troops stands in a road, in marching order. On the right, three black, dangerous Parrott guns, ready loaded, each with gunner thoughness through what would at a pass some five hundred yards inadvance, where the right to read enters a wood. On the left, some thirty yards from the road, is an old Virginia mannor house, recently deserted by

PAIN, GRAVITY, MAGNETISM—
These are no times for anything but facts. And at length a fact is known in medicine: it is Directly an aid come, galloping along the coad from the advance beyond the wood, whispers a word in the ear of the command-PURGATION WITH BRANDRETH'S PILLS. This is as much a fact in medicine as that the magnet is a fact in navigation, or that gravity is
