The Rebel Soldfers Refuse to Fight of Monday.

Desirous of furnishing our readers with the earliest and fullest details of the all important battles near Richmond on Saturday and Sunday last, we have, for their satisfaction, collected all the information we could obtain and present them to our readers this morning, as promised, in an extra edition of the Post. The accounts include a partial list of killed and wounded; but we omit most of the casualities in foreign regiments, as being of little inter-

The first account that we give is one furnished by the special correspondent of the New York Times, and is as follows: BATTLE-FIELD, Monday, June 2, 1862.

The rebel army still occupied the camps "t Casey's and Couch's Divisions on Sunarding the road facing Snead's house jette wheat field where our earthworks ere thrown up, extending from our exceme left to the railroad near Fair Oak Station. The distance from the point where our earthworks were located to the

the wood fronting Snead's house, on the Williamsburg road, occupying the centre, and a little in advance of our right and left wings. On our left the remaining por-tions of Couch's and Casey's divisions rested, with reserves of fresh troops extending to our extreme left, near the middle road, under Gen. Keyes.

Gen. Heintzelman was on the ground at the front as day dawned, accompanied by two aids. Gen. Hooker met him, and the two Generals sat down at the foot of a tree ad our breastworks, arranging a plan for the day's proceedings.

Gens. Jameson, Keyes and Sickles arrived at the front soon after, and the fight took place between them. It was plainly seen no further advance was to be made that day, as no troops were ordered up to the front.

A Lieutenant nth two cavalrymen, crossed over the heat field behind Snead's house, and was Loutto penetrate the wood near the Williamsburg road, when the enemy's pickets appeared at his front. He immediately turned back and reported to Gen. Heintselman the close proximity of the enemy.

The Fourth and Fifth Excelsior regiments were sent to support one of Richardson's batteries, but before the battery got in the property of the enemy began to fair working order, the enemy began to show signs of a retreat. A STAGE AND FOUR HORSES CAPTURED.
