FRIDAY MORNING, JUNE 13.

CITY AND NEIGHBORHOOD INTELLIGENCE.

The Western Penitentiary--Improvements.

Yesterday morning we spent a leisure half hour in a visit to the Western Penitentiary and the affable and efficient Warden, Capt. John Birmingham, who seems as much at home as though he had occupied the position all his life.

We were kindly shown through the prison by Mr. Stewart, one of the overseers, and had occasion, as on previous visits, to admire the completeness of the interior arrangements and the perfect order and cleanliness of everything inside the enclosure.

The extension of the centre block of cells, (designated B) is completed, giving 88 additional cells, of which about forty are occupied, some of the occupants having been transferred from cells which had been necessarily duplicated, owing to the rapid increase of prisoners without a corresponding increase of accommodations. The new cells are about the same size as the old, but more comfortable, having better ventilation. The beds are also so arranged as to give the prisoners more room. Improved locks have also been placed on the doors, by which they are locked and unlocked with greater facility. The drains, water pipes and gas fixtures are also admirably arranged and new pipes are being introduced throughout the entire pile of buildings, as the old ones are continually bursting. The extension of the block is well roofed with slate and the old shingle roof is being removed from the old portion and slate substituted. The block is now 550 feet in length and contains 188 cells, while blocks A and C have 74 each.

On the top of Block B, about the center, a foundation of brick has been laid for an octagonal tower, of iron, the castings for which are being made by Messrs. Smith, Park & Co. The castings are twenty-four feet long, and the top of the tower, when completed, will stand sixty-six feet from the ground. It is designed to light this tower brilliantly with gas, throwing the light, by means of reflectors, through every part of the grounds, and over the adjacent commons. This will be a valuable improvement, making any attempt to escape equally as dangerous at night as in broad daylight.

The foundations are being laid for the extension of Block C, but the work will be suspended so soon as the appropriation made at the last session of the Legislature is exhausted, not to be renewed until a new appropriation is made.

During the winter new gas works were erected, to supply the increased consumption in the proposed extensions. The house, a one story brick, divided into three compartments, contains four retorts, only one of which is now used, though in winter two will be required, leaving two for use when the others are out of repair. The gas made here passes through the usual pipes and purifying apparatus, into an octagonal building close by, where it is received in a gasometer twenty-five feet in diameter, capable of holding 7,000 cubic feet of gas and thence distributed through the buildings. The works were erected under the superintendence of Mr. Robinson, Penitentiary Engineer, the retorts and pipes being put in by Messrs. Davis & Phillips and the gasometer by W. B. Scaife. Other minor buildings have also been recently added. We also observed that all the ground in the enclosure beyond block B has been brought under cultivation and has a fine crop of onions growing upon it; and other vegetables. Cabbage plants are also being put in and it is fair to presume that next winter the prisoners will have an extra allowance of cabbage and onions.

The number of prisoners at the beginning of the month was 276, against 288 on the 1st of January, showing that so far this year the number discharged has been in excess of those received. One of these is over 80 years of age; another is serving his *seventh term* in the institution.

The prisoners have fresh meat and soup every day in the week, (except Sunday) the kind being varied each day, boiled potatoes twice a week, when procurable, and coffee and bread twice a day. On Sunday no soup is served and rations of pickled beef or pork are given out instead. The cooking arrangements are perfect—the cook house scrupulously clean—and the bread the best that can be made from superfine flour, baked in the prison. All the food given to the inmates is of the best and most substantial quality and there is no reasonable grounds for complaint on that score, as most of them fare better in the Penitentiary than when at large.

The health of the prisoners is generally good, and the physician, Dr. Rogers, informs us that he has but two cases in hospital, both of whom will recover. One will be removed to his cell in a few days, being now rapidly improving.

Under the administration of Captain Birmingham, who is a strict disciplinarian, the prison rules are rigidly enforced and violations promptly punished. The solitary system is fully carried out, except in the case of those too old to work in their cells or the debilitated, (recommended for exercise by the physician) who are set to work in the grounds. We believe that the affairs of the prison are better managed now than ever before.

A portion of the Baltimore delegation visited the prison yesterday and, after a thorough examination, went away much pleased with all the arrangements.

Pittsburgh Printers in Secessia.

A correspondent of the Chicago *Times* relates that when our forces occupied Corinth, they found there a printing office, established by Beauregard, for printing orders, blanks, &c., which had been placed in charge of Alfred Lambert, a printer well known in some of the lake cities, and who worked at his trade for several years in this city. Types from the several regiments were detailed to assist Lambert, and among them were two other Pittsburgh printers, John Loughrey and Wm. Brisbane, who were forced into the service under the conscription law. Before the rebellion Brisbane was a partner in the job office attached to the New Orleans *Crescent*, and his sentiments were such that we do not believe he joined the rebel army of his own accord.

Motion for New Trial.

Yesterday morning, in the District Court, an argument was had in the case of Geo. Painter's administratrix vs. the city of Pittsburgh, upon a motion for a new trial. The case was tried recently, and the jury found a verdict of $2,100 damages for the plaintiff. Geo. Painter, it will be remembered, fell into the St. Clair street sewer, in 1859, while the contractor was doing the work, and received an injury to the cap of the knee, which caused lock-jaw and terminated in his death. His administratrix entered suit against the city, and the jury, believing that the accident happened through the carelessness of the city authorities, awarded a verdict in the amount stated. The Court has reserved its decision on the motion for a new trial.

Convicted of Burglary.

Karl Rudolph, alias Charles Roth, and Henry Hier, were yesterday tried for burglary in entering and robbing Duffy's tavern, on Grant street, of two trunks and other articles. Rudolph was convicted and Hier acquitted.

"Killed on the Railroad."

Arnold Clark, (colored,) employed on the Cleveland and Pittsburgh and Indiana Railroad, was thrown from the train on Sunday last, and instantly killed.

The Baltimore Delegation.

Our Baltimore visitors spent yesterday morning in pleasant intercourse with our merchants and business men generally and many visited other manufactories, in which all took a great interest. At one o'clock they left the Allegheny depot of the Pittsburgh, Fort Wayne and Chicago Railway, in company with a number of our most worthy and prominent citizens, members of City Councils and others, for Chicago, which city they will reach to-day and remain until Monday or Tuesday. Their visit here was pleasant and we hope they may find quite as much enjoyment in Chicago.

National Horse Fair.

A great national horse fair is to be held at Williamsport, Pa., a beautiful town in the Susquehanna Valley, well suited for such an exhibition, from the 2d to the 5th of September, inclusive. Arrangements have been made to secure the finest assemblage of imported, blooded and native breed of horses that has ever been collected in this country. The list of premiums will be large, ranging as high as $200. Liberal excursion rates will made by the railroad companies. The place is accessible by railroad from all directions.

Railroad Interest Sold.

The Erie and North East Railroad has sold its interest in the Erie and Pittsburgh Railroad for $40,000 in 7 per cent. 1st Mortgage Bonds. The Erie and Pittsburgh Road is to be completed to the coal-fields. The above amount gives about twenty per cent on the capital stock of the Erie and North East Road. It will be remembered that the Legislature of Pennsylvania forced this road to contribute $500,000 to the E. & P. R. R. as a bonus for an unbroken guage through Erie.

Murder.

James Ovens, of Crawford county, O., was deliberately murdered in the vicinity of Forest, Hardin Co., O., by a man named Wilson, with whom he had been traveling in company with a number of our most worthy and prominent citizens, members of City Councils and others, for Chicago, which city they will reach to-day and remain until Monday or Tuesday. Their visit here was pleasant and we hope they may find quite as much enjoyment in Chicago.

Their visit here was pleasant and we hope they may find quite as much enjoyment in Chicago.

The People's Insurance Company.

This company is now fully organized, with the Board of Directors advertised in another column. The present office is at No 1 Girard House, Smithfield street, where the Secretary, Wm. F. Gardner, will attend to taking all kinds of fire and marine risks. The company is established on a good basis and will become one of the institutions of Pittsburgh.

Newsboy Drowned.

Ben. Blair, a newsboy, went into the river at Steubenville, on Tuesday evening, and going into rather deep water and being unable to swim, he was soon heard to utter cries for "help." One of the lads close by made efforts to save him, but was unable to do so, and he was drowned.

Benefit of Mr. Lewis.

The entertainment at the Theatre this evening is for the benefit Mr. H. Lewis, familiarly known as "the old man." He appears as Tom in the good old drama of the "Dumb Man of Manchester," and as Scaramouch in "Don Juan," Ettie Henderson personating the Don. The bill is good one, and as Mr. Lewis is a most deserving actor, we hope to see the house filled.

Carriages.

We direct attention to the advertisment of Mrs. Jos. White, Lawrenceville. She has just received a lot of fine vehicles from the East, among which are several good double-seated carriages. We advise those about purchasing a vehicle to examine her large and well assorted stock.

New Strawberries.

There will be an exhibition this morning at 11 o'clock at Mr. Knox's seed store, No. 29 Fifth street, of a rare collection of new varieties of strawberries, embracing Triomphe de Gand, Fillmore, Golden Seed, Vicomptesse, Hericart de Thury, Duc de Brabant, Princess Royal, &c. Lovers of choice berries are invited to examine.

Libel Suit Withdrawn.

In the Court of Quarter Sessions, yesterday morning, a *nolle prosequi* was entered by the District Attorney in the libel suit brought against Col. J. B. Finley, of Kittanning, by R. E. Brown, Esq., of the same place, the latter having withdrawn the suit and paid the costs.

The National Tax.

The New York *Herald* of the 10th contains a table of the articles upon which a tax or duty is imposed by the tax bill as passed by the House and amended in the Senate. The *Herald* can be found at the Pittsburgh office, opposite the Post Office. Pittock agent.

The Duquesne's Throw.

A member of the Duquesne Fire Company, who was present at the trial of the new hose on Wednesday evening, informs us that the distance thrown, through four hundred feet of hose, was two hundred and forty-seven feet, two inches.

Golden Feather.

This is the title of a new novel by Arthur M. Grainger, otherwise called the "Buccaneer of King's Bridge," with illustrations by Darley. It is for sale, at 25 cents, by Henry Miner, next door to the Post Office.

THE STOCK on hand of a Shoe Store will be sold without reserve, by order of assignees, at Lynd's Auction House, corner Wood street and Virgin alley, commencing this morning at 10 o'clock.

Wool.

The average quotations for good wool in Ohio, on contracts, are forty-five cents per pound.

THE Pittsburgh flag manufactory has removed to 78 Fifth street, opposite the Post-office, where can be found flags from six inches to 50 feet. John W. Pittock is the agent.

ALL the late books, papers and magazines can be found at Pittock's, opposite the Post Office.

HIGHLY IMPORTANT!

NEWLY INVENTED RUSSIAN PEBBLE SPECTACLES, superior to any that have ever been presented to improve the sight. To all suffering from defective sight, arising either from age or other causes.

Persons with weak eyes can be supplied with glasses which will greatly benefit and not strain the sight. Through their high polish and true ground they produce the most perfect vision, and are highly recommended as the best in their effects upon the eye, for preserving and improving the sight in continued writing and reading, either by day or night. Short-sighted persons, and those operated upon for cataract, can also be suited.

Optician DIAMOND'S thorough knowledge of the Anatomy and the various Pathological changes of the Human Eye, enables him, by merely examining the eye, to select such glasses as are most suitable. The eye being so delicate an organ, we cannot be too cautious in the selection of Spectacles, as from their use may result the most desirable or deplorable consequences. He inserts the Russian Pebble also in old frames; and solicits the patronage of all in want of his article. Office, "MORNING POST" Building.

RAT PASTE. RAT PASTE. RAT PASTE
RAT PASTE. RAT PASTE. RAT PASTE.

In offering this article we wish it distinctly understood that it is no Humbug, gotten up to deceive, but on the contrary is the best and most effectual Vermin Destroyer and Rat Killer, ever discovered. Its advantages are over all others, that

It is one half cheaper,
It is free from Poison,
It brings Vermin to the air to die,
It prevents them from dying in the premises,
It will when used according to the directions,
Completely banish Rats from the premises
In a single night.
It is preferable in every respect to any and all Vermin Destroyer now in use. If it does not prove effectual in every instance, banishing them in a single night,
Banishing them in a single night,
Banishing them in a single night,

money refunded in every instance.

On account of the celebrity of this article, many worthless imitations has been gotten up, only to deceive, to avoid imposition, ask for and take no other than the

SOMETHING NEW AT

NO. 83 FOURTH STREET.

I would invite the attention of ladies and gentlemen to that beautiful piece of art so much esteemed of late called the ILLUSION PARTING, and my mode of inserting the same in Wigs and Madonna Bands.

It gives them a light and life-like appearance hitherto unattained; I have also just received a large and carefully selected stock of the best French Hair, purchased for cash, and my motto is quick sales and small profits.

CAMERON'S EXTRACT OF FLOWERS, or Botanic Cream, for softening and beautifying the hair, is too well known to need comment. Also, my new HAIR WASH for family use; it prevents the hair from falling out and getting prematurely grey. Ladies do you want to have a clear, beautiful, white and healthful skin? If so, get a bottle of my Philodermie, or Skin Cleanser, and take a little healthful out door exercise. This is no humbug, but will preserve your beauty to old age.—Discard all poisonous skin paints.

my22-6mw J. R. CAMERON.
