

Democratic State Ticket. AUDITOR GENERAL, BRAVO SLEWEN, Union County, SURVEYOR GENERAL, JAMES P. BARR, Allegheny County.

SAURDAY MORNING, AUGUST 2. No. 1000. Democratic County Committee of Correspondence.

The Democratic County Committee of Correspondence. The following resolutions were unanimously adopted: That the Chairman of this Committee...

ABOLITION TREASON. The abolitionists of the school are determined to drive President Lincoln into his extreme measures, or break down his policy in prosecuting the war against the rebels.

The simple and notorious truth is that this abolition faction has no interest in the present struggle for the suppression of the rebellion but that of the extinction of slavery. While the rest of us regard this as being incidental, it is with them the beginning and the end.

The New York Evening Post, the ablest of the radical press, has been for some time forcing with its commanding ability the extreme measures upon the attention of the Administration.

As we have already stated, the leading Abolitionists of the Union—and they furnish the brains and energy of the Republican party—have no interest in this stupendous struggle with rebellion, save the freedom of the Southern negro population.

tendencies of the powerful faction who are endeavoring to force the Government into the adoption of their destructive doctrines.

THE REBELS ON NORFOLK. It was rumored in Washington that the rebels have at Richmond intended to run through the fleet on the James river and attack the Minnesota and other vessels at Norfolk, and take that city.

The Tax Gatherers. We perceive that the President has commenced the appointment of assessors and collectors of taxes. The Springfield Republican remarks:

Drafting the "Solid Men." From the Richmond Dispatch. The opinion was formerly expressed by many in the South that they had not yet encountered the most formidable fighting men of the North, but that when they would come down upon us with their "solid men," and crush us as they would the jellies.

The Rebels are sanguine. That their new Merrimack will do us an immense amount of mischief, and that the prestige lost when the Monitor was destroyed by the iron-clad is a great advantage.

The Canal at Vicksburg. We learn by a gentleman from Vicksburg that the attempt of Lincoln's army of diggers to draw off the Mississippi from Vicksburg by cutting for it a new channel, is a task of one of great difficulty.

The "Elin City" has Arrived. From City Point with three hundred and eighty sick and wounded soldiers, mostly landed at Chesapeake and Mill Creek Hospitals.

The Skirmish at Malvern Hill. The brick battery which was captured at Malvern Hill on Thursday forenoon was briefly mentioned in the Herald yesterday.
