FRIDAY MORNING, AUGUST 8.

-Nov. 21st, 28th, 29th, (2). Come Up and Subscribe.

We direct special attention to the adve tisement of the Executive Committee another column. It contains information of importance to all engaged in recruiting. Now is the time for every man to do his duty to his country: let one and all come up and swell the Volunteer Bounty Fund.

Twenty-Eight Hundred. The total number of recruits enrolled up to last evening was twenty-eight hun-Allegheny? Keep the ball rolling.

A Valuable Invention. It is the invention of Andrew T. Dunshee, of McKeesport, in this county, and is one of the greatest improvements known in of the greatest improvements-known in filtering. It consists of a square box, with perforated bottom, upon which is placed several layers of charcoal, of different degrees of fineness. It will thoroughly purify the foulest water, and even if salt or brackish, leave it clear, pure and free from all sediment or deleterious mat ter. By changing the arrangement of the ter. By changing the arrangement of the layers of charcoal it can be made to filter land or sea, as it would always ensure, when water could be obtained at all a

Recruiting. It is estimated by many that not less than 2,500 men have been recruited in 300,000 men. Some firty companies are organizing, of which fifteen have almost reached the minimum, while some have more and many forty or fifty men, and few have less than thirty. Two thirds of the number have been recruited in the last shipped by Messrs. Guthric & Co., of this city. The tobacco will be mostly saved, in a damaged condition, as it was months' men will be received and all squads sent forward will be consolidated into companies after that date. We would therefore strongly urge upon recruiting officers the necessity of forming their squads

into companies before starting. Shocking Accident.

On Wednesday night, the wife of Jacob Ringeling, of Pride street, Eighth Ward, was so dreadfully burned while filling a was so dreadfully burned while filling a lamp, that she will scarcely recover. The lamp becoming empty, and not wishing to extinguish the light, she removed the burner, and commenced pouring in oil from a can, holding the burning wick so close that the vapor ignited, exploding the can, and covering her with the burning fluid. Having children in the room, she fied to another part of the house, and thence to a porch, where she fell writhing in pain, her clothing having been nearly all burnt off. Her face, breast, arms, and and in fact the entire front part of her and in fact the entire front part of her body, was frightfully and deeply burned. She is about twenty six years of age, and

The noise and confusion, the shrieks of the wounded, shouts and cries of men, and neighing of horses, amid the smoke and steam, was terrific. Many of the passengers jumped overboard, and as the lines were still on shore, though not fast, reach-ed the shore in safety. Others who jumped over were drowned. Many of our citizens have been in the habit of spending the "heated term" at the delightful resort of Mr. H. W. Cimitti, at Phillipsburg, where pure country oir, good water and fine baths contribute to the coinfort and health of the guests in a large degree. This year hasbeen no exception and the hotel has been crowded all summer. Mr. Cimiotti has now some four or five rooms vacoant, and we are in serious earnest when we say to families desiring relaxation and quiet near home: "This is the place." If you try it you will have no cause of complaint.
