Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects; I yet know of no sufficient reason why a man may not testify to the benefit he believes himself to have received from any simple preparation in the hope that he may thus contribute to the benefit he believes the believes the believes the believes the believes the believes the benefit he believes himself to have received from any simple preparation in the hope that he may thus contribute to the benefit he believes the believes the believes the believes the believes the benefit he believes the benefit he believes the benefit he believes himself to do thers.
I do this the more readily in regard to Hoof-land's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced spainst them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robert Shoemaker, Keg, for the removal of this prejudice by proper unffering from great and long continued debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by ordient relief, and restoration to a degree of podily and mental visor which I had nut folt for ix months before, and had almost depaired of realing. I therefore thank God and my friend for lirecting me to the use of them.
