MILITARY NOTICES. THE ANDREWS PATENT PIPE. BAHM INFANTRY. REQUIRES ONLY A TRIAL TO prove its incomparable superiority to any pipe new in use. It may be smoked without any deleterious or unpleasant effects, as the oil of to-bacco is not drawn into the mouth, and the tongue does not become furred or coated from inhaling its poisonous properties. The bowl is made of the finest Devonshire clay, and gives to the to-bacco cannot become moist, as in ordinary Pipes, because the drip beneath receives the saliva that insensibly escapes into the stem: hence the pipe never becomes offensively rank, and the breath of the smoker does not proclaim to every one he uncets that he has ben' indusing in a pipe."

When the bowl becomes diograd, or the drip beneath receives the rip beneath stem in a pipe. The clay bowl may at any time be re-tored to its original whiteness by burning in the fire, (first drying it thoroughly) or a new bowl may be procured of the dealer:
