PITTSBURGH, MONDAY MORNING, AUGUST 18, 1862.

THE ANDREWS PATENT PIPE. (PATENTED JANUARY 21, 1862.) REQUIRES ONLY A TRIAL TO REQUIRES ONLY A TRIAL TO prove its incomparable superiority to any pipe now in use. It may be smoked without any deleterious or unpleasant effects, as the oil of to-bacco is not drawn into the mouth, and the haling its poisonous properties. The bowl is made of the finest Devonshire clay, and gives to the to-bacco a peculiarly pleasant fragrance. The to-bacco apeculiarly pleasant fragrance. The to-bacco annot become moist, as in ordinary Pipes, because the drip beneath receives the saliva that insensibly escapes into the etem: hence the pipe never becomes offensively rank, and the breath of the smoker does not proclaim to every one he meets that he has beer "indulging in a pipe."

When the bowl becomes clogged, or the drip beneath requires cleansing, the pipe may be taken apart by removing the rim. The clay bowl may at any time be restored to its original whiteness by burning in the fire, (first drying it thoroughly) or a new bowl may be procured of the dealer:
