Induced by the extensive sale and universal
popularity of Hoofiand's German Bitters, (purely
vegrable) basts of incoming the sale of popularity of Hoofland's German Eitters, (purely vegetable) hosts of ignorant quacks and unscrupulous adventurers, have opened upon suffering humanity the flood gates of Nostrums in the shape of poor whisky, vilely compounded with injurious arugs, and christened Tonics, Stomachics and Bitters.

ters.

Beware of the innumerable array of alcoholic preparations in plethoric bottles, and big-beilied kegs, under the modest appellation of Bitters; which, instead of curing only aggravates diseases, and leave the disappointed sufferers in despair.

YOU WANTSOMETHING to STRENGTH-YOU WANT A GOOD APPETITE!

DO YOU WANT TO BUILD UP YOUR CON-STITUTION!

From J. Neuton Brown, D. D., Eddor of the Encyclopedia of Religious Knowledge.

Although not disposed to favor or recommend Patient Medicines in general, through distrust of their ingredients and effects; I yet know of no sufficient reason why a man may not testify to the bonefit he believes himself to have received from any simple preparation in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture, I am indebted to my friend Robert Shoemaker, E.sq., for the removal of this prejudice by properests, and for encouragement to try them, when suffering from great and long continued debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for ix months before, and had almost depaired of reaining. I therefore thank fold and my friend for lirecting me to the use of them.

Dr. Jackson—Dear S.r.:—I have been fr quently requested to connect my name with commendations of different kinds of medicine, but regarding the ractics as out of my appropriate sphere, I have a sail cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart from my usual course, to express my full conviction that for general debility of the system, and especially Liver Complaint it is a safe and valuable preparation. In some case it may fail, but usually I doubt not it will be very beneficial to those who suffer from the above causes. Yours very reopectfully.

GREMANTOWN, June 1, 1861.

DR. C. M. JACKSON Sir.—It gave me pleasure, wo years ago, to give you a certificate, testifying nat the German Bitters had done for me. I am ow perfectly cured of all those diseases your redictine professes to cure, viz. Dyspepsia, Chronic and Nervous debility, disease of the Kidneys, te. The powerful infinence it exerts upon Nervous prostration is surprising. I have heen consulted frequently in reference to your Bitters, and without hesitation, have recommended it for the above complaints, and in every instance it has effectually cured. Your medicine has a great reputation in Germantown, and is sold in every Drug Store, and in most of the Grocery stores here. If any one should question what I say, let them come to Germantown, and I will prove to their satisfaction, that the Bitters have cured in this vicinity more than twenty cases of the above diseases.

READ THE TESTIMONY FROM THE ARM PHILADELPHIA, August 12, 1862.

De. C. M. Jackson—Dear Sir.: While in Virginia, owing to the change of water, I was taken with a severe diarrhees, which seemed incurable, and which greatly weakened me. When we eached Martinsburg, I fesred I should have to ome home; but noticing some of your Bitters in the store Mr. H. H. Price, in that town, I purhased a supply, and on taking it was speedily restored to health. The diarrhees was quickly checked, and I experienced no return of it. A number of my comrades, who suffered in the same manner and from the same cause, with whom I shared the Bitters, join me in this certificate. I expect to return to the seat of war with the Legon, and shall certainly take a supply of the Bitters in my knapsack. I would not be without it rits weight in gold, particularly on going into a meetone region.

KIT BUILES 1801 BONNULL.

Some ten years ago, when travelers in Orgon suffered very severely from attacks of Indians, I was one of a party passing through the wild and unthrown State on my way to California. After a month's ride from the Willamette Valley, we diverged West ward from the great emigrant trail, as and found ourselves camped, one evening on the trail to Crescent fity, at its intersection by Deer Creek, super consisted, besides myself, of two lethargic Germans, an after ble ble-minded young artist, lately from London, and a stark, tacturn bunter, from Missouri. During our long journey I had tried to be companionable with each of my fellow-travelers in turn) and at last had tried to be companionable with each of my fellow-travelers in turn) and at last had tried to be companionable with each of my fellow-travelers in turn) and at last had the forese of the core of the creek in great confusion.

I understood him. We were camped I understood him. We were camped not far from Royne River, and it was likely enough the fire had been lit by an outlying party of the Royne table, who had earned their sobriquet from being notoriously the most rascally Indians in all Oregon. The night, however, passed without alatm. In the morning the German's cattle, already half foundered were found to be so badly galled by careless saddling, that it was agreed we should halt for four-and twen'y hours, to give the poor brutes a chance of recruiting. Kit's cake, propped up before it with a stone, was baking in the usual primitive fashion, and the vensor steaks, cut up into little chanks, threaded en a peeled wand, were twirling over the embers. Still the German had not returned with the water. As, in spite of our hails, he did not emerge from the half of our hails, he did not emerge from the half of the creek, which had a steep bank considerably higher than a man, his fellow countryman was dispatched to see what he was doing. THE ANDREWS PATENT PIPE.

(PATENTED JANUARY 21, 1862.)

REQUIRES ONLY A TRIAL TO prove its incomparable superiority to any pipe now in use. It may be smoked without any deterrious or unpleasant effects, as the oil of to-bacco is not drawn into the mouth, and the tongue does not become furred or conted from inhaling its poisonous properties. The bowl is made of the finest bevoneiner clay, and gives to the to-bacco counce become moist, as in ordinary Pipes, because the drip beneath receives the saliyat that insensibly escapes into the stem: hence the pipe never becomes offensively rank, and the breath of the smoker does not proclaim to every one he meets that he has been "indulging in a pipe."

When the bowl becomes clogged, or the drip beneath requires cleansing, the pipe may be taken appart by removing the rim. The clay bowl may at any time be re tored to its original whiteness by burning in the fire, (first drying it thoroughly) or a new bowl may be precured of the dealer.

**Sa.Read the opinions of those whe have tried this pipe:

"From personal experience, we know it to be all that it is represented" "Philada. Inquirer.

"A very decided improvement." "Public Ledger" "All who have tried it bear testimony to its excellence." "Escaped the pipe in use." "Managunk Star." "The pleasures of a smoke are cohanced a
