This was nothing less up fighting question. than a suggestion to General McClellan, telling him that he was "master of the these excitable fanatics, but that the disruption of our governmental system was at hand; military tyranny was about to fix its iron heel upon the usurped liberties of a prostrated people, McClellan becoming "the cut-purse of the empire and the rule." All these fears and apprehensions were felt and expressed by a class of public journals which almost daily advertise their disbelief in the Heruld's statements.

Yet in the case alluded to, they believed, or affected to believe, the most absurd of the most afternation.

But the Heroid, in its issue of Wednesday last, contains another and a better sensation item from Washington, than the one about McClellau, and one having equal honor to himself and to the illustri some little show of plausibility to recommend it. It opens with "startling devel-

"Most astounding disclosures have been "Most astounding disclosures have been made here to-day, by letters and verbal communications from prominent politicians, showing that a vast conspiracy has ture of this conspiracy is the proposed meeting of Governors of the Northern States to request President Lincoln to resign, to enable them to carry out their scheme. The writer, in conclusion, says Governor Andrew and Senator Wilson Governor Andrew and Senator Wilson are at work, and they are probably at the bottom of the movement. From other fifty thousand independent volunteers proposed to be raised under the auspices of the New York National Union Defence Committee were intended to be a nucleus for the organization of this Fremont conspiracy. It was the purpose of those engaged in this movement to have this force organized and armed by the government, and placed under the independent command of their chosen leader, and then to call upon all sympathizers to unite with them in arms to overthrow the present administration and establish a military dictators ship, to carry out the peculiar policy they desire the government should execute. Failing this, it is stated that a secret organization has been inaugurated, the memhers of which are known by the name of Roundheads. It is intended that this organization shall number two hundred thousand men in arms, who shall raise the standard of the conspirators and call Gen. Fremont to the command. They expect to be joined by two thirds of the army of the Union now in the field, and that eventually one million of armed men will be gathered around their standard of the real proposed to the army of the Union now in the field, and that eventually one million of armed men will be gathered around their standard of the real proposed to the command. They expect to be joined by two thirds of the army of the Union now in the field, and that eventually one million of armed men will be gathered around their standard of the real proposed to the real proposed to the sample of the conspirators and call Gen. They expect the proposed to the real proposed to the sample to be joined by two thirds of the army of the Union now in the field, and that oventually one million of armed men will be gathered around their standard. This startling disclosure is vouched for by men of high repute in New York and other Northern States. It is the last card of those who have been vainly attempting to drive the President into the adoption of their owa peculiar policy.

Here is a scheme, discovered and exposed, of the most alarming charto be joined by two thirds of the army of the Union now in the field, and that event

and no one of the entire Abolition crew sees the danger threatening our liberties. This is most villainous hypocrisy, or fearful partisanship. In the most improbable story of the Herald about McClellan, a man who has never given the slightest evidence of dangerous ambition, these Abolition partisans see more dangers than lition partisans see more dangers than cers were killed and wounded. "vast hell" can hold, but a reported conspiracy for the government's disruption, part during the war turns out to be Har-headed by a restless and an aspiring adper's Ferry. venturer, who has always been in insubor.

Col. Ford blamed for disobeying dination against his superiors, they allow to pass in comparative silence. This is a dangerous exhibition of partisan tenacity, and admonishes us to be awake to partisan Ford, of the 23d Ohio, late public printer and forman Liout Governor of Ohio and and admonishes us to be awake to partisan designs. Wars, in time, render people indifferent to government. The people of France, after being weary of changes in their government from democracy to despotian, quietly submitted to the rule of an usurper, who is now their idol. Let us beware that our present National calamity may not be continued until the people, from exhaustical, become weary and indifference invite of the prostration of their institutions.

Surrender of that position to Col. Thomas ford, late public printer and former Lieut. Governor of Ohio, and the Philadelphia Knownothing convention Heights against Col. Miles' positive orders, and when there was no necessity for it.
