THE PUBLIC DEBT. The Republican papers are endeavoring to make their readers believe that our public debt is only about \$500,000,000. The annual interest on this sum, at 6 per cent. would be \$30,000,000. But the Direct Tax Bill, drawn up by Thaddeus Steveus, and passed by a Republican Congress, for the purpose of paying the interest on the public debt, will extract ONE HUNDRED AND FIFTY MILLIONS OF DOLLARS from the pockets of the people! Now, one of two things is certain; either the The Republican papers are endeavoring from the pockets of the people! Now, one of two things is certain: either the Republicon papers are wrong in their estimate, or Congress has grossly deceived and swindled the people on this point, by taxing them just five times as heavily as FARMERS' DEPOSIT BANKING CO. was necessary! We leave the industrious and hard working microsity and hard working microsity. and hard working masses to judge between the Republican papers and the Republican Congress. The amount of tax levied by Congress (\$150,000,000), is the interest at 6 per cent., of TWENTY-FIVE HUNDRED MILLIONS OF DOLIARS 1 (\$2,500,000,000) which sum, it is fair to presume, Mr. Stevens and his fellow-mem-

ers of the Committee of Ways and Means estimated the public debt would amount by the time the assessment and collecion of the tax could be made. If we are wrong, we trust some Repub-lican editor, of financial proclivities, will set us right, and show why a tax of \$150,-000,000 was levied to pay the interest for one year on a debt of \$500,000,000.
