THURSDAY MORNING, DEC. 4.

THE SATURDAY HORNING POST ADVANCE OF RATES.

wo years since, with a view to securi uniformity in our system of accounts and placing all substribers upon an equal footing, we reduced the price of the Saturday Morning Post from Two Dollar divear, in advance, to all, whether in clubs ourselves, as we realized all the advantages of the scription list—and to our readers, who were thu furnished with a better and more readable news paper, with a larger amount of literary and news

Now we are reluctantly compelled to ahando take a step backward towards first principles. The reasons for this change must be obvious to all. Owing to reasons which we will not discuss here, the price of every article in common use, whether produced, manufactured or imported, has largely increased—and in nothing more rapidly than paper, (which now costs us fifty per cent. more than two months since) printing ink and other materials used in our business. Labor has also advanced and we new pay to our hands wa ges proportioned to the universal rise in provis-ions, &c. Under those circumstances we are unable to furnish a paper such as our weekly at the low rate of One Dollar a year, and we have left two alternatives, to stop its publication or advance its price. We prefer the latter, yet would much as this is impossible we have adopted a new schednle of rates, to go into effect from and after the let of January, 1863, viz:

SATURDAY MORNING 'POST. One Dollar and Fifty Cents per annum, in Advance.

CLUB RATES (and one to getter up)

tions will be received at the old rates and those whose terms are about to expire should renew January will not be renewed prior to that time,

Cacept at the new rates,

If, after the date mentioned, we should receive admittances at old rates, we will hold the amount subject to the order of sender, until wascertain whether he desires it to be returned oremits the additional sum required. All remittances at our risk. Address

Judging by experience, no colored man will leave his home in the South if protect will leave his home in the South if protected in that home. All possibility of competition from negro labor in the North is avoided in giving colored men protection avoided in giving colored men protection when soil which they avoided in giving control and protection and employment upon soil which they have thus far cultivated, and the right to which has been forfeited by the original proprietors, deeply involved in crimes of treason and rebellion. No great territory has been permanently reduced without the leaders of its people being deprived of their lands and property. It is these that give power and influence. Few men have commanding genius and talent to exercise a dangerous influence over their fellow men, without the adventitious aid of money men, without the adventurous and or money and property. By striking down the system of compulsory labor, which enables the leaders of the rebellion to control the resources of the people, the rebellion would die of itself. Under no circumstances has any disposition to servile insurrection been exhibited by the colored population in any Southern State, while strong loyalty to the Federal government has been displayed on every occasion and against every discouragement.

By the means suggested, the rebellion may be disarmed and subdued swiftly and effectually, and the lives of our people saved from slaughter on the battle field. By the occupation of all their forts on the Mississippi and the sea coast, a market will be opened in every rebel State for the industry of our people to supply the wants of the army, and also of a loyal population, in exchange for valuable products of their labor.
