A silly rumor was circulated pretty extensively yesterday, to the effect that the Exchange Bank of this city had broken. How or by whom it was originated we did not learn, but the story gained credence for a time among those (especially the country people) who did not stop to inquire how it is possible for a bank to break when it, has suspended specie payments and it not obliged to redeem its notes. It is needless to say that the whole story was without a shadow of foundation in fact, and that the bank is to-day as strong as ever.
