The State Treasurer has reported to the Senate, in reply to the resolution requiring him "to inform the Senate what amount of specie pertificates were issued to the several Banks of this Commonwealth, in of speciel certificates were issued to the several Banks of this Commonwealth, in accordance with the Act of January 30th, 1863, authorizing me to exchange with the Banks an amount of currency sufficient to pay the interest due in February in coin, and report the names of all the Banks that offered to exchange, and those to whom the certificates were issued. The first named has signified its acceptance of the act, but has not yet deposited the coin. The remaining five banks base their declination to comply with the act on the ground of being specie paying banks. I have no means of telling whether their claim is founded in fact.

For these banks to receive their interest in gold on the amount of public country. For these banks to receive their interest in gold on the amount of public debt held by them, and pay their taxes in common currency does not agree with my ideas of justice, or establish very clearly their claim of baing specie paying institutions.
