DAILY POST. definitions. The law of nations is the common current at well as common series of the world. Congress had approved and ratified acts of the resident as if they were legally done previous to their legislation. Authorities were here cited from Chief remarking, we are of opinion that the President had a right of jure belli to proclaim the blockade which neutrals were bound to observe, not only injury to the enemy but direct force and distruction of property is a consequence of war, money, wealth, and the product of agriculture, are said to be the sinews of war. The law of nations authorize the cutting of these sinews by capturing property on the high seas under our year peculiar constitutions, citizens not only owe allegiance to us bat in States which we leave; hence people acted as States in rising in hostilities against the United States and their right to do so, is being decided by wager of battle. The boundary between the beligenests is marked by bayonets, and South of the line is the enemies territory. The proclamation of the blockade is according to the law of nations; the cargo must share the fate of the vessel in case of violation.
