M.; Captain Larned, A. A. G.; Dr. Church, Medical Director. Though it was not generally known that the General was expected there was a large crowd at the depot on the arrival of the train, by whom he was warmly welcomed. He received the congratulations of a number of citizens and gratulations of a number of citizens and then, it is few brief remarks, thanked the people for their kind and unexpected reception.

The property of the control of remarks are plastered with about six inches of mud. It is a shame that the Commission-Ception The party went Westward by the Pitts The party went westward by the ritts-burgh and Cleveland Rairroad, and, as the train moved off they stood upon the plat-form of the rear car with a number of citizens. Arrived at Allegheny city, another crowd, assembled at the depot, incondition. sisted on his addressing them, and he made short speech, thanking them for the reception, so undeserved, and hoping to meet them again when the country is at peach. In a few moments the train and the crowd were gone. Gen. B.'s destinationlis Cincinnati. requires it. Dummy Engines. There seems to be a strong current in popular opinion in favor of the use of 'dummy lengines' on street railroads, as they have been found safer in every respect than the use of horses. The Railroad Committee in the New York Legislature have reported a bill to legislature have reported a bill to legislature have reported a bill to legislature and of the time for which they were enhave replifted a bill to legalize their use on any railroad in the State, whether opon any railroad in the State, whether operated by steam or horses. Commenting upon this the Philadelphia Ledger says: "The duminy engine recommends itself to general use by its superior economy and its safety, being more easily controlled in its movements than animal power ever can be. The use of it will save a great deal of the present cost of working railroads, and every dollar of capital saved adds that much to the accumulated wealth of the country, the fund from which labor adds that much to the accumulated wealth of the country, the fund from which labor receives its reward. Less cost in working our railroads enables the companies to put the fare down to the lowest possible rate, which is a great saving to all who use the road. Besides this public pecuniary advantage, the convenience is greater, for a car without horses does not take up near as much space on the highways segment of the Pennsylvania Reserves, (fermerly a Colonel of that division), having been assigned to command at this point, one with them. The safety is greater, for steam does not get fractious and run away with the cars, and, being under mechanical checks which operate instantaneously, passers by lare not near as much exposed to injury in the streets. There is also superior comfort as well as superior conveto injury in the streets. There is also superior comfort as well as superior convenience, for the same bushel of coal which drives the single will also serve to warm the cars in winter, making travel as pleas. Who has known the General, I can cordial. the cars in winter, making travel as pleasant in the severe cold weather as it is in summer, which will add to the public health as much as to individual comfort. Our Legislature has made an advance step in allowing dummy engines in the rural districts, but as there is absolutely more safety in them than in the use of horses, they are better adepted than the latter for travelling in the populous city, and the right to use them dught to be extended to every city railroad."

who has known the General, I can cordial all endorse this good opinion of him, and hope that he may always possess the good will of the men under his command, as he does at the present time."

We regret to state that, however well entitled Col. Biddle Roberts may be to the encomiums of this writer, he is not the person appointed to the command in question. The officer assigned to it is Col. Roberts formerly aid to Gen. Pope. The Quarter Sessions Court commenced its March term yesterday. The business was animportant, no bills being ready and the greater part of the session was occupied in hearing the few constables' returns which were made. The calendar for the termis very light. In Ross towing the whole Democracies

In Ross township the whole Democratic ticket was also elected, and in McClure, with one or two exceptions, the result was the same. Billiards. On Friday last a trial of skill between two knights of the cue, John Deery and Wm. Goldthwate, came off at Geary's saloon, New York. The match was the saloon, New York. The match was the great topic of interest for days before, and the betting was quite heavy, although the contestants were admitted to be possessed of about equal skill in the mysteries of carrombolarostation. Among the billiard celebrities present were the veteran champion, Michael Phelan, Dudley Kavanagh, Chris. O'Connor, Mr. Geary and James Freeman. Mr. Geary acted as umpire for Goldthwatte, and Mr. O'Connor for Deery, Mr. Phelan consenting to be the final judge in all cases of dispute. The game was four ball carrom, one thousand points up, for a purse of \$200. The play was not quite so good as either Deery or Goldthwaite is in the habit of exhibiting. Deery's play was remarkably poor, while all the bad luckseemed to stick to him from first to lest. Gold thwaite won by 531points, after nearly two hours and half steady Play. The scoring stood; Goldthwaite, 1,000; Deery only made one good run—namely, 123. Another game was to be played by the set two rivals at O'Connor's establishment on

THE VERY LATEST TELEGRAPH The Invasion of Kentucky LATE FROM NEW ORLEANS Rebel Force Captured near Port Hudson

Treaties with the Indians. From San Francisco. æc., æc.,

Louisville, March 23.—The city has een filled with rumors of rebel advances all day. All that headquarters are advised of is

that the rebels in numbers varying from ive to ten thousand are in the vicinity of Somerset, and more are coming. Military circles estimate the number there at less than two thousand notwith-

standing those advices.

The report of a battle progressing near Murfreesboro on Saturday was entirely false. Skirmishing took place along the line yesterday, with no important results. NEW YORK, March 23.-The steame

City of Manchester arrived at this por this evening. Her advices have been an ticipated.
The New Orleans correspondence or th World states that on the 9th inst. a small rebel force was captured six miles below Port Hudson, together with the signa book of the rebel army. Gen. Sherman is in command at New Orleans during the absence of Genera Banks.

Large numbers of vagrant negroes have been arrested in New Orleans.

A private dispatch received here states that Commodore Farragut passed the Port Hudson batteries on the night of the 14th inst. with his fleet. Col. Clark, chief of Gen. Banks' staff was wounded on the 14th, but not seri-

ously.

No fight of consequence has yet taken place.

Gen. Banks is in good spirits and within five miles of Port Hudson.

The wounding of Col. Clarke makes it pretty evident that there had been some heavy skirmishing.

THE NEW STEAMER MAJESTIC.

Capt. John P. Keiser's new steamer has attracted a good deal of attention during the past week, and has been visited by a large number of persons, all of whom have come to the conclusion that she is decidedly one of the largest and best steamers ever constructed. The hull was built by Messrs. E. & N. Porter & Co., Shoustown. Length 255 feet: beam 41 feet; and hold I feet. The cabin was built by Messrs. W. Richardson & Co. is neat, handsome and admirably arranged in every department. The boilers, four in number, with four illust, 40 inches in diameter and 30 feet long, were built by Messrs. Watson & Monroe, arevery complete, and calculated to add credit to this establishment. Mr. Watson beings practical mechanic and an old river engineer, knows how things should be got up so as to give owners and officers as little expense as possible.

The Majestic is a side wheelor. Her wheels are 32 feet in diameter, with 12 feet buckets. She is supplied with all modern improvements that ingenuity could suggest, or money purchase. We have no hesitation in eaying that no boat ever built on the western waters excels her in completeness, and it is doubtful if she has any equals. She has Lea's Patent Elivator for loading and unloading, and an extra boiler for the same. The painting was executed by Marphy & Bogg's best style. The outfit was furnished by Long & Duff; Furniture by T. B. Young & Co.

The Majestic only draws 32 inches light, and is intended for a St. Louis and New Orleans packet, but at present she will run in the service of "Uncle Abraham". She was built under the superintendence of Captain WB Haslett. The Captain has built many fine boats and never built one that was not so modest, he might justly teel proud of the noble Majestic. She will be commanded by Captain John P. Keiser, an officer who comes highly recommended. We take pleasure in introducing him to our friends. SPECIAL NOTICES: M. Facts about Brandreth's Pills. Westchester Co., N. Y., Oct. 23, 1872.
G. TER EVOK SHELDOR, Editor Sing Sing Republican:

Dear Sir—I would state that I was induced to use BRAMDR: TH'S PILLS, through the recommendation of John R, Swift, of Orton, Westchester County, who was entirely restored to health by their use. He was sick for some two years, very costive and dyspoptio, and he tried everything but was not relieved. Finally, he took one Brandreth's Pill every day for a week, and a dose of six Pills every day for three days, and then took one Pill every day, with an occasional dose of six. Livene months he well, gaining 40 pounds in weight.

Yours truly.

EDWARD PURDY.

Westchestee & lett, as:
Edward Purdy being duly sworn, says that he resides in the town of New Castle; that some years ago he was very sick with a sore on his leg, which had been running tor over five years; that he was also much distressed by a pain in his chest, and besides very costive and dyspeptic; that after trying various remedies and many physicians, he commenced using Brandreth's Pills, six to eight three tires a week, and at the end of one month, the sore on his leg healed, and at the end of two months he was entirely cured of costiveness, dyspepsia and pain, and has remained well evergince.

EDWARD PURDY.
