MEDICAL.

ENTIRELY VEGETABLE.

NO ALCOHOLIC PREPARATION!

A PURE TONIC MEDICINE.

DR HOOFLAND'S

CELEBRATED

GERMAN BITTERS

PREPARED BY

DR C. D. JACKSON, Philadelphia, Penna.,

Will effectually cure

Liver Complaint,

DYSPEPSIA, JAUNDICE,

Chronic, or Nervous Debility, Diseases of the Kidneys, and all Diseases Arising from a Disordered Liver or Stomach,

such as Constipation, Inward Piles, Fullness or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming or the Head, Hurried and difficult Breathing, Fluttering at the Heart, Choking or suffocating sensations when in a lying posture, Dimness of Vision, Dots or webs before the sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c. Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and 3d great depression of spirits.

And will positively prevent Yellow Fever, Bilious Fever, &c.

THEY CONTAIN NEITHER ALCOHOL OR BAD WHISKY!

They will cure the above diseases in ninety-nine cases out of a hundred.

Indeed, the sale and universal popularity of Hoofland's German Bitters, (purely vegetable,) hosts of ignorant quacks and unscrupulous advertisers, have opened upon suffering humanity the flood gates of Nostrums in the shape of poor whisky, vilely compounded with injurious drugs, and christened Tonics, Stomachics and Bitters.

Beware of the innumerable array of alcoholic preparations in plethoric bottles, and big-bellied kegs, under the modest appellation of Bitters; which, instead of curing only aggravates diseases, and leave the disappointed sufferers in despair.

YOU WANT SOMETHING to STRENGTHEN YOU!

YOU WANT A GOOD APPETITE!

DO YOU WANT TO BUILD UP YOUR CONSTITUTION!

DO YOU WANT TO FEEL WELL!

DO YOU WANT TO GET RID OF NERVOUSNESS!

DO YOU WANT ENERGY!

Do you want to sleep well?

Do you want a brisk and vigorous feeling?

If so use

HOOFLAND'S GERMAN BITTERS

From J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge.

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects; I yet know of no sufficient reason why a man may not testify to the benefit he believes himself to have received from any simple preparation in the hope that thus he may contribute to the benefit of others.

I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robert Shoemaker, Esq., for the removal of this prejudice by proper facts, and for encouragement to try them, when suffering from great and long continued debility. The use of three bottles of these Bitters, at the commencement of the present year, was followed by speedy relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them.

J. NEWTON BROWN.

PHILADELPHIA, June 23, 1861.

From the Rev. Joseph H. Kennard, Pastor of the Tenth Baptist Church.

DR. JACKSON—DEAR SIR,—I have been frequently requested to connect my name with recommendations of different kinds of medicine, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart from my usual course, to express my full conviction that for general debility of the system, and especially Liver Complaint it is a safe and valuable preparation. In some cases it may fail, but usually I doubt not it will be very beneficial to those who suffer from the above causes. Yours very respectfully,

J. H. KENNARD,

Eighth below Coats street, Phila., Dec. 24th.

From the Wife of ALDERMAN WUNDER, Germantown.

GERMANTOWN, June 1, 1861.

DR. C. M. JACKSON—Sir,—It gave me pleasure years ago, to give you a certificate, testifying to the benefit Hoofland's German Bitters had done for me. I am now perfectly cured of all those diseases your medicine professes to cure, viz: Dyspepsia, Chronic and Nervous debility, disease of the Kidneys, &c. The powerful influence it exerts upon Nervous prostration is surprising. I have been consulted frequently in reference to your Bitters, and without hesitation, have recommended it for the above complaints, and in every instance it has effectually cured. Your medicine has a great reputation in Germantown, and is sold in every Drug Store, and in most of the Grocery stores here. If any one should question what I say, let them come to Germantown, and I will prove to their satisfaction, that the Bitters have cured in this vicinity more than twenty cases of the above diseases.

Respectfully, HANNAH WUNDER,

Main street, above Rittenhouse, Germantown, Penn'a.

JUST THE THING FOR THE SOLDIERS.

Will build up the constitution, and give health and strength to an overtasked and diseased system.

THE TESTIMONY FROM THE ARMY

PHILADELPHIA, August 12, 1862.

DR. C. M. JACKSON—*Dear Sir,* While in Virginia, owing to the change of water, I was taken with a severe diarrhœa, which seemed incurable, and which greatly weakened me. When we reached Martinsburg, I feared I should have to come home; but noticing some of your Bitters in the store Mr. H. H. Price, in that town, I purchased a supply, and on taking it was speedily restored to health. The diarrhœa was quickly checked, and I experienced no return of it. A number of my comrades, who suffered in the same manner and from the same cause, with whom I shared the Bitters, join me in this certificate. I expect to return to the seat of war with the Legion, and shall certainly take a supply of the Bitters in my knapsack. I would not be without it on a multiplied account.

Yours, truly, A. E. ALTEMUS,

Company H, Scott Legion.

BEWARE OF COUNTERFEITS.

See that the signature of "C. M. JACKSON," is on the WRAPPER of each bottle.

DAILY POST.

LUSUS NATURÆ.

"A subject which one finds
A curious study for inquiring minds."

It happened once that in an ancient place,
There did exist a strange, eccentric race,
Human they were, though some may not agree,
But raise a doubt on their *humanity*,
They had a "habitation and a name,"
And their existence seemed to have an aim:
And it was this—they were designed to spy
The smallest mote within their neighbor's eye;
Then possessed a double convex lens,
Adjusted (with a benefit of friends,
Whom they surveyed with scrutiny so nice
That in a foible they perceived a vice;
Picked up with care their every smallest sin,
As one impaling insect on a pin,
And viewing it with microscopic sight,
With horror saw a *monster in a mite!*
But when on their distorted eyes would inward roll
To contemplate their own contracted soul,
A blissful vision soothed their eager pride,
They saw an *enormous object largely magnified!*
What seemed a blank to others, casual sight,
Displayed to theirs a vista of delight.
Where peerless virtues of colossal form
Stood arrayed to shame the wicked world by storm.
Woe to the erring who might cross their path,
They would have met no mercy from their wrath
Had not those virtues been like pigmies small,
Casting vast shadows on the mental wall.
But ne'er approaching to the world at all;
Of in religion's cloak were clothed these seers,
To hide a *cloven foot and length of ears*
And thus *en masque* they had a part to play:
Self-elected censors of the day.
Zealous to make their neighbors failings known,
But grandrons careful to conceal their own:
Were often gifted with quick wit and sense,
To them it was a *personal* offense.
Should their religion differ but in name,
Although their faith might be the same,
But ne'er approaching to the world at all;
Of in religion's cloak were clothed these seers,
To hide a *cloven foot and length of ears*
And thus *en masque* they had a part to play:
Self-elected censors of the day.
Zealous to make their neighbors failings known,
But grandrons careful to conceal their own:
Were often gifted with quick wit and sense,
To them it was a *personal* offense.
Should their religion differ but in name,
Although their faith might be the same,
Let them beware, they certainly should rue it.
These critics thought that in *their* party cause
Twas right to whistle the civil laws,
Maintaining that chicane of fools and fiends,
The end would justify the basest means.
An error into which such people fall,
Having no moral principle at all.
And thus, perhaps, from moral law exempt,
Objects alone of pity and contempt;
Though dangerous when their lack of sense and sanity
Exerts most malignant influence
To brand a crimson stigma on the age,
And blacken History's once unsullied page.

Perchance it might be centuries ago,
When these strange beings walked this world of woe,
Or happily in that dire and dusky age,
When cruelty refined was all the rage.
No matter now. 'Tis thought they pined away
In the gray dawn of this enlightened day.
Ere Christian charity's effulgent beam
Shed o'er the world its holy light supreme.
But, if extinct, 'tis rumored here of late
That they exist still, in a fossil state:
Dry bones as ever, and as dry and frail,
Mummies they were, and mummies they remain,
Barbarian relics, which good people must
Regard with feelings of intense disgust.

MRS. H. G. FARRELL,

PEORIA, Illinois.

Manufacture of Wood into Paper.

The manufacture of wood into printing material, as at present done at the paper mills at, Springville, Chester county, promises to meet with a great success.—The parties who are now engaged in the same, and who are the patentees of the process, experimented for over two years before their efforts met with encouragement. The wood, poplar being preferred, is cut by machinery directly across the grain, into slices half an inch thick, and thrown into a close boiler, where it is cooked, along with numerous chemicals, under a steam pressure of seventy pounds. This reduces it, in a couple of hours, to a pulp, resembling in color the cheapest brown sugar. A faucet being opened, the pressure of steam inside the boiler forces the pulp out into a vat, where it is rinsed by means of hose. This makes its color much lighter, being a pale ashen hue. The liquid draining off is repeatedly tested, and until it reaches a certain stage of dilution, is preserved to operate on the crude wood again. The last process, previous to the ordinary operations of paper manufacture, is bleaching.—This brings the pulp to a pure virgin whiteness, entirely differing from the brown, dirty-looking stuff at first produced.

The paper made is principally of two kinds; one is called "pulp," being the pure wood paper, thick, and somewhat resembling blotting-pad; this is sold to be mixed with other material, and again manufactured. The second variety is newspaper, containing 20 per cent. of hemp.

An Improvement in Telegraphy.

The Viscount de Vougy, director general of the electric telegraph throughout France, has invited several scientific members of the National Institute, and some of the chief clerks in the telegraph department, to assist at experiments about to be made with the typo-telegraph invented by the Chevalier Bonelli. The typo-telegraph of this scientific engineer can print 500 dispatches of 25 words within an hour. According to the system of Morse now in use, it would require not less than 20 wires and 50 clerks to accomplish a similar work. Should the experiments prove satisfactory it is said that the Government will concede to the Chevalier Bonelli the working of the line from Paris to Lyons and Marseilles.

Goethe's Correspondence.

At Wilmar (Upper Saxony), it is stated that the correspondence between Goethe and the Duke Karl August may be expected to be published in the course of the coming summer. Dr. Vogel, one of the surviving representatives of the "great time" of Weimar, along with the Grand Duke and the chamberlain, Herr von Goethe, is engaged in the preparation of the letters. The entire number amounts to 630, of which the Grand Duke possesses 130 (which are therefore by Goethe) while 416 are from the archieves of the Goethe family (which are from Karl August to Goethe) and the remainder will be gathered from other quarters; including, for the sake of completeness, a few that are already published.

The "Devil."

Here is a description of the mysterious craft called the "Devil," which the Confederates captured from our fleet at Charleston:

"An iron frame, floated to the water edge by pontoons, is pushed ahead of the Monitor as she moves in. Its length from the bow of the Monitor is from twenty to thirty feet. An apparatus is made next to the vessel of the shape of a horse shoe, intended to receive it. The heels of the bows, in "obstruction remover" is two feet.—From each side of the extremity a long iron bar or shaft runs down also two feet, the Monitor drawing from eight to ten feet of water, thus rendering it impossible for any torpedoes over which this "obstruction remover" passes to injure the vessel.

"A number of iron bars are used, not only to form the net work so as to either push forward or explode every torpedo less than twelve feet under water, but also to strengthen and steady the masts. At the bottom a heavy tie bar unites these two vertical rods, upon which rests the percussion torpedo, containing seven hundred pounds of powder. Above this is a hammer, which catches in a spring so stiff as to require two men to set it, but constructed so that the lever which protrudes in front, forming the handle or other end of the hammer, will cause the spring to give with little pressure. This is to remove piles."

Truth from a Republican Congressman.

Our readers have already been acquainted with the exposure of immense frauds in the New York Custom House, through the instrumnality of the Congressional Investigating Committee, of which Colonel Van Wyck is chairman. An effort was made to prevent the evidence from becoming public, but the Colonel was not to be deterred by threats or bribes, and insisted that his report should be printed. The following extract from his speech in Congress on the subject expresses sentiments that must meet with a fervent response in the breast of every real patriot. It should be recollected that Colonel Van Wyck is a Republican, and his testimony is more valuable on that account:

"The neck begins to chafe where the yoke of this heavy burden is borne. The Administration has feared to drive such men from its door, lest hostility should be aroused against it. That which they supposed strength has been the great source of weakness. With a single exception, when has one of these men been court-martialed or punished? To-day they have injured the republic more than the South in arms. Had they been arrested, and placed under the gallows or in Fort Lafayette, *your army would have been stronger, your people at home more united. No wonder that your soldiers and friends are dissatisfied. They cannot appreciate the principles of treating.* Your army for a mere pittance, is deprived of all luxuries, and at the same time, the necessaries of life; enduring all the privations of camp and the dangers of battle, while they see base men making mockery of the misfortune of the nation, coining gold from the sighs and tears of the people."

True, every word true, Colonel, and yet there are men in this city, and everywhere in the country, claiming to be "loyal" citizens, and honest men, who revile all as traitors who believe as you do, and strive to encourage the mob spirit against papers which express the same sentiments.—*Erie Observer.*

Gov. Andrew's Negro Brigade.

The National *Intelligencer* thinks the indifferent success of Gov. Andrew in filling up from all parts of the United States the negro brigade which he was authorized to raise in Massachusetts, suggests to practical minds that the negroes will not come into this conflict for the "calling."

A CARD.

HAVING MADE ARRANGEMENTS to operate before the Dental Colleges of the United States, and the various Dental Conventions for the purpose of bringing before the profession, my Apparatus for Extracting Teeth Without Pain, I shall of necessity be obliged to be away from my office the greater part of next Spring and Summer, and that my patients may not be the losers thereby, I have associated with me Dr. E. J. WAYE, a Dentist of well known ability in every branch of the profession, and whose elegant fittings are the admiration of the profession wherever seen. Dr. Waye will be with me from April 1st, and will take the general charge of the office, leaving me free to devote my whole attention to Extracting Teeth with my Apparatus, and to the scientific part of the profession. Persons who may have hitherto failed to have their Teeth extracted for want of time on my part, or from defects in the apparatus are assured that such difficulty no longer exists, as I have made many improvements, and will devote my whole time to it.

References in regard to the Painlessness and Safety of the operations given if desired, and from Medical gentlemen too. Remember that cold weather is the time when the apparatus can be used to the best advantage.

E. OLDRY, Dentist,

mh17-dtmy14 134 Smithfield street.

CONCORD

GRAPE VINES.

WE WERE AMONG THE FIRST TO secure this INVALUABLE GRAPE, and have fruited it for five years. We obtained our original vines from Mr. HIBLL who originated it. The Pittsburgh Horticultural Society in 1858 awarded us a diploma for its exhibition, and the Allegheny County Agricultural Society, in 1860, a premium for it as "The BEST new seedling grape, in all respects superior to the Isabella."

Our stock of vines is unequalled anywhere, which we offer at 25 cents each, $2 50 per dozen, $12.50 per 100, $100 per 1,000. Small vines at less prices.

We can furnish a few extra large vines at from 50 cents to $1 each.

The Philosophic Burner.

HAYDEN'S NEW DOUBLE-ACTING Philosophic Burner for Carbon Oil is now ready. It possesses many advantages over the Common Burners.

1. It makes a large or small light with perfect combustion.

2. It will burn any quantity of oil with safety.

3. It can be used with a long or short chimney.

4. It can be used as a taper night-lamp.

5. It can always be made to burn economically.

6. It is more easily wicked than any other burner.

7. It can be trimmed and lighted without removing the cone.

8. It throws all the white light above the cone.

9. The glass chimney can be removed or inserted without touching the glass.

These burners are the common No. 1 size, and can be put on any lamp now in use. Every person using Carbon Oil should have a Philosophic Burner. Price 25 cents; per dozen $2. Sold at No. 82 FOURTH street, Pittsburgh.

F. HAYDEN.

NOTICE—PURSUANT TO AN order of the Circuit Court of the United States for the Northern District of Ohio entered December 26 1862 in the suit of Charles Moran and others vs the Ohio and Pennsylvania Railroad Company and others. Notice is hereby given to the holders of the Bonds and Coupons of the Ohio and Pennsylvania Railroad Company which were secured by a First Mortgage on that part of the Ohio and Pennsylvania Railroad East of Massillon, to the holders of Bonds and Coupons of said Company which were secured by a First Mortgage on that part of said Railroad West of Massillon, and to the holders of First Mortgage Bonds and Coupons of the Ohio and Indiana and Fort Wayne and Chicago Railroad Companies respectively, that the undersigned will pay to the parties entitled to receive the same upon presentation of the Bonds and Coupons held by them respectively at the time and place hereinafter mentioned the distributive shares allocable to such Bonds and Coupons, of the proceeds of the sale of the Pittsburgh, Fort Wayne and Chicago Railroad under the Decree of the said Court entered in said suit June 10th, 1861. Holders of such Bonds and Coupons are hereby required to make application for the shares of such proceeds claimed by them, and in evidence of the right to receive the same, to present the Bonds and Coupons so held to the undersigned at the office of Winslow Lanier & Company in the city of New York, on or before the 6th day of April 1863.
