Eastern Exchange. Western Exchange.

PITTEBUR3H OIL TRADE.

MONDAY, April 27th: The market continues very firm, with a good emand at the advance we noticed yesterday he receipts so far have fallen far short of whe res expected. The amount the pond freshet will and out is not known, but will probably be along livery. Holders, however, expect to realize higher figures, and, from present appearances, they are likely to obtain them. The demand in the East is improving. The shipments East were a llows: Crude, 2,233 bbls; Refined, 1,158; Benzole, 171; total, 3,612. The receipts were: Per llegheny Valley Railroad, 351 bbls: per river.

Crude in bbls, 1,051; in tank, 1,400; Refined, 325; crude in bols, 1,251; in tank, 1,400; Refined, 325; total, 2,775 bbls.

Crude—The market was firm; sales 75 bbls ent. They are prepared from vegetable extracts on wharf, 15c in bbls; in tanks it is held at 90. A that are farmless on the system, and nover nature few sales were made on private terms. One sale few sales were made on private terms. One sale as reported at 91/c. Some 2,000 bbis changed hands in that way.

Refined is firm : prices are looking up. From the Oil City Register. OIL TEHS:

The market has been active and animated this past and present week, with fair transactions and a further advance in prices. We notice one, said of 1,000 bbls on Thursday, last the fair transactions and a further advance in prices. We notice one, said of 1,000 bbls on Thursday, last transactions and a further advance in prices. We notice one, said of 1,000 bbls on Thursday, last transactions and it is provided the most reliable quotation \$2 per bbl at the wells. Many holders are asking more, but we hear of most sales being made at that figure. Buyers are still plenty, but figures. They claim that it gives them no margin to operate on, and some have gone home; but about all that is offered here finds ready purchasers. The difference in price between this point and at the wells is the freight. The market closes firm and buoyant. We should estimate the affect of 1 price between this offered here finds ready purchasers and buoyant. We should estimate the closes firm and buoyant. We should estimate the first a some forward. Judding from the long that have gone up oil Creek, we suppose that the freshet of to-morrow will bring down about 10.000 bbls. Stock on hand at wells about the daily production, at least we know of no large amounts that have been stored. Frice of bbls, \$2 5002 25 for prime new. No second-hand in market, is great abundance of boats here for freighting Freights to Pittsburgh, 45050c.

Remarks-The weather continues pleasant we have now fine growing weather. Business is teadily improving. The weather seems to have a favorable effect upon trade generally. Both vers are in fine navigable order for not only camers but for coal boats, which are taking adsteamers but for coal boats, which are taking advantage of the present rise. We notice quite a number of "broad horns" passing for the lower ports, and, from present appearances our neighboring cities will yet receive an ample supply notwithstanding the deficiency during February and March. The "slight difficulty" between our coal men and the diggers being adjusted every thing now goes on right; we hope it will continue vantage of the present rise. We notice quite a number of "broad horns" passing for the lower hing now goes on right; we hope it will continue so. The next matter in order is to see if some cannot be adopted for our citizens to get coal at less than 10c per bushel, the rates now ex-torted from them. The diggers have come down why do not the dealers do the same? Flour-We have nothing new to notice in re-

why do not the dealers do the same?

Flour—We have nothing new to notice in regard to this article. The receipts for some time past have been very limited, which makes holders firm and not disposed to give way. In other cities prices have largely declined, but in this market the rates have remained about the sam for weeks past. The sales made, however, were only in a small way for local purposes. Becondary only in a small way for local purposes. Becondary in a small

change, with a stendy trade demand. The stock in first hands is simple.
