

The Union as it was. The Constitution as it is!

WEDNESDAY MORNING, APRIL 29.

WHAT IS IN DEATH.

Notwithstanding the frequent and persistent assurances of the abolition radicals that General McClellan was absolutely immobilized by the report of the War Committee, they will not let the poor man rest in his premature tomb. They continue every now and then to "revisit the glimpses of the morn'g," filling us with thoughts beyond the "reaches of our souls!"

THE AGE.

This new Democratic paper published in Philadelphia comes to us enlarged and otherwise improved: it is now the most attractive journal published in the State. In all its departments it is admirably conducted, and under its fearless and independent editorship, it has become a long as we are powerless to discuss it, it can only be obtained by accepting conditions which involve a permanent disaffiliation of the Union.

INCREASE OF EMIGRATION.

One of the most remarkable signs of the times is the extraordinary increase of emigration within the last couple of months. From January 1 to date over 17,000 emigrants have landed at this port, but of these some 5,000 arrived within the past week, and all the ships now due from the other side are crowded with emigrants. It is expected that, compared with the same period last year, four times the number of emigrants will land at this port up to July 1.

"A PRETTY PARTY."

The Gazette thinks the Democracy of the country "a pretty party to accomplish its country's salvation!" It is nothing else. Two years of devastation, carnage and blood, having failed to accomplish what abolitionism insisted could be brought about in thirty days—the prostration of the rebellion—demonstrate pretty clearly, that it is incapable of doing anything else.

PROSECUTION AND NOT PROHIBITION.

Under the caption that excellent Democratic journal, the Philadelphia Age, gives us a long and excellent article on the subject of the Union League of Philadelphia, like that of this city, endeavoring to persuade citizens for the moral offense of differing with it in political sentiment. Speaking of Democrats in the neighborhood of the Age remarks, and we endorse its sentiments, because they apply with equal force to the political affairs in this neighborhood.

THE PROCLAMATION UNDER THE CONSCRIPTION LAW.

Mr. Arnold, of Illinois, in a recent interview with the Secretary of War, ascertained the terms of the forthcoming conscription. The action under the law will be taken in relation to the draft of men, and the draft is to be made, first in those States and districts which have failed to furnish their quota under call heretofore made; third, of those States which have furnished more than their proportions of volunteers heretofore called for, will be credited with such excess, and will probably be exempted from the draft in those States until the number of troops furnished by the several States shall have been equalized by drafts in those States which are behind.

THE DRUMMER BOY AT SCHOOL.

Robert Henry Henderson, the brave drummer boy, who was recently the recipient of a costly and splendid silver drum from the 71st Mass. Association, is now at school in the beautiful city of Pittsburgh. He is under the instruction of the National Business College, and has been admitted to the same on the basis of his previous attainments. He had found a good home in Prof. Eastman's family.

Association, is now at school in the beautiful city of Pittsburgh. He is under the instruction of the National Business College, and has been admitted to the same on the basis of his previous attainments. He had found a good home in Prof. Eastman's family.

INTERNAL REVENUE.

The Internal Revenue Service is preparing to assess the income tax, and will probably not enter the expense of purchasing or printing any other forms.

THE BOSTON DAILY GLOBE.

The Boston Daily Globe, justly remarked some days ago that, the great of the Loyal States does not always look the same wisdom which marks the practice of journals in the Seceded States when they are called to decide on the expediency of publishing or withholding facts or incidents which ground for inference disfavoring the cause they respectively represent and uphold. For instance, a few days ago such sensation was made over the alleged discovery in Pennsylvania of a railroad company of conspirators, pledged to resist the operations of the Government, even to the extent of compassing the assassination of President Lincoln.

For instance, a few days ago such sensation was made over the alleged discovery in Pennsylvania of a railroad company of conspirators, pledged to resist the operations of the Government, even to the extent of compassing the assassination of President Lincoln.

MARRIAGES IN EARLY TIMES.

At a recent popular meeting at Columbus, Dr. Johnson, Senator from Cayuga county, was called upon for a speech. He declined making a speech, but recited a story of the difficulty of getting married in early times, which he had learned from one of the Pioneers, as follows: Ministers were few and far between, and a certain couple of young folks in Gov. Tom's native county, (Trumbull), having parted alone upon their journey, concluded to postpone the rest till they had more time, hurry up their arrangements, and in the meantime they had an opportunity. The result was marriage, and for all he knew, the marriage was happy.
