PITTSBURGH OIL TRADE.

Monday, May 25th, 1863.

Eastern Exchange.

The excitement in regard to oil continues to ncrease, especially for Crude. Dealers seem to be wild in their notions about prices. The stock in first hands is reported to be quite I'mited. The Eastern news continues to favor holders. Correct quotations cannot be given, but we give the neurst we can obtain. The Oil Exchange received no dispatch from il City, and of course we are in the dark in regard to the asking rates up there. They are no oubt steep, if we are to judge by the last reports eccived from that point. There were no account of exports posted up on Saturday. The total receipts by the Aliegheny river only amounted to 69 bbls, all told.

Crude-We find it very difficult to give an hing like correct figures, as no two dealers agree as to what they should be. We note sales of lotomprising 1,201 bels in bulk, 191/@20c; sales 30 bbls, lots including packages, 25@261/c. Refined is held firmly at honded, 41@45c; fre Cooperage-Sales of new bbls at \$2.50; there e some lots being delivered on former contract at \$2 40.

PITTSBURGH PRODUCE MARKET. Remarks—The weather continues warm, but large supply of three ply yulcanized H, drant Hose. This hose is warranted not to be affected by heat at three hundred degrees, Fahrenhear, and to stand a pressure of 75 pounds to the square ioch and never, like leasther requiring oiling. Cut in length to sait, with couplings and pipe attached.

Remarks—The weather continues warm, but then we must bear in mind that this is the proper time for warm werther, and it is just in season, although it would hencefit the crops and delight the farmers if would lay the dust and make it pleasant for out-deep traveling. Our rivers continues warm, but

Manufacturers of Fire Brick, Tiles, Crucibles, &c.

There is nething very encouraging in these reports. We furnish them without comment. Bacon is seems to hang: buyers want lower figures. It looks as if holders would have to submit to a slight decline. The supply in first hands is ample. Grain du l with a decline in prices. Cheese—The stock of new is increasing; prices are a shade lower. The supply on hand is ample with steady receipts. Groceries are unchanged. There is a fair business being transacted. Butterduil, being out of season during the warm weather. Dried out of season during the warm weather. Dried Pruit was in moderate demand. Prices were un-

changed.

Fiour-We have nothing particular to notice in this article. Whilst there was a slight improvement in the demand, prices remain unshanged. The receipts by wagon have fallen off. We note sales as follows, viz: 100 bbls Extra, Schools 75: 56 do Extra, \$5 75; 50 do hotice Extra, \$5: 55; Extra Family, \$6 5066 75. Wagon lots sold at various prices according to quality.

Hay-Prices took a large tumble and were dull even the decline. Sales 12 loads at scales at \$9.12616; from store the usual advance was obtained.
