COAL OILS. We condense the f llowing from the Philadel We condense the f. llowing from the Philadelphia Coal Oil Circular:

The Philadelphia market during the past week has experienced only a slight improvement; several efforts have been made to recover rates paid about 10 days ago, yet up to the hour of going to press they have been marked with but very moderate success. The regular dealers who, about this time, commence to prepare for the Fail business, are very shy and unwilling to accede to the demand of holders. The reports from the Eastern piarkets had but little effect and the enormous transactions reported are sales and re-sales, swelling only the number of barrels. The sales include or rude at 25203/40, and in a few instances? To guess paid. Refined in bond moyes off moderate at 421/40/45; some holders hat 46c. Refined free sells as wanted at from 50/352/4 cents. Bennine was firmer, with sales made at from 27/4 to 3224 cents.

From New York, we have advices to June 6th, 3 o'clock P. M., A speculative movement has been tet on foot to give the market a firmer feeling, with only partial eneces, buyers and selerate wide apart, and most sales, and especially the re-sales, have been speculative only. Crude sold at prices anging from 25 to 250ts. Or oil on the spot. Refined free active with sales at 460-41% of of dark to yellow: 480-50 for pale straw 516-35 for white; smaller parcels are queted at 55. Refined in bond at 376-50 for dark; 416-42% for ye'low; 422-264te for pale straw; and 45-450 for prime white. Benzine was firmer, with sales at 27% to 31 cents, as to quality:
