The son of that dead parent they regarded with suspicion, and they, consequently, informed him that they spat upon him and his suggestions. The responses of these Southern organs of the Davis government, to the New Yorker's overtures for peace, were unmistakable; their authors determined that he should not again THE CONSTITUTION IS OUR appear as a peace advocate, and they effected their purpose by insulting not only him but the memory of his father. In the food of these potentials food of these potentials foots which have heen a thousand times since repeated there are some who still seriously talk of peace propositions to the rebels, in the hope of restoring the Union.

The leaders of the rebellion did not start their enterprise with any idea of ever returning to the Union. Had they remained with us, they could have had all to which they were entitled, but they deliberately made up their minds to strike for a separate independence, and that independence they are determined to accomplish. Alluding the other morning to these facts we predicted that the sentiment of Fernando Wood's convention would be received by the rebel government, with no conting as it is, and put it to the use its opinions and the three words are to know a ditches and the three words and carrying off with him about a thousand of the best horses in the State, and it must be owned that the nervousness extends to the State Capital, which is supposed by many not to be beyond reach of the enemy. Fortifications are being erected all the artillery to be broken up. President Juarez has issued a proclamation and carrying off with him about a thousand of the best horses in the State, and it must be owned that the nervousness extends to the State Capital, which is supposed by many not to be beyond reach of the enemy. Fortifications are being erected five or six miles above town, and a slight increase in the uneasy failing that prevails among a portion of our people would doubtless lead to the digging of ditches and the throwing up of embank. Buren, and the prediction is already verified. "We fear that we must say to these peaceable New Yorkers—epeak for yourselves. New York, June 12.—The following has been received from Newbern, North Carolina : A letter dated Newbern, North Caro lina, June 9th, says: The concurrent tes-timony of deserters leaves no doubt that the long smouldering fires of revolution are breaking out in the interior of North Carolina, and the disaffection has reached a point far beyond the significant intimations of the journals. Several thousand armed refugees from the conscription have been for weeks entrenched in the mountains, with artillery, successfully defying the Confederate authorities.

The Raleigh Standard boldly complains

that while the rebel conscription act has not been enforced in Georgia and Mississippi, North Carolina has been raked as with a fine tooth comb. It appears that in the battle at Chancellorsville the North Carolina regiments were placed in the front to resist General Hooker's advance, while the South Carolina and Virginia troops were held in reerve.
