CITY AND NEIGHBORHOOD INTELLIGENCE The Steam Fire Engine Contest Great Trial in the Crystal Palace, London—The New York Engine Manhattan and Other American Engines on the Ground—Exciting Trial of Skill and Strength—The American Engines Declared Beaten and "Nowhere." menced in the Crystal Palace gardens London, with a view to test and ascertain by actual competition which is the best description of steam fire engine out of the many different machines of the kind now The engines produced for trial were divided into two classes—the small class con-sisting of those not exceeding 30 cwt., and cellence, rapidity in raising and genera-ting steam, facility of drawing water, the large volume thrown, the distance to which it can be projected with the least amount of loss; and simplicity, accessibility and durability of parts. measured after delivery. These targets consisted of canvas hoods with circular openings of six feet in diameter, having Among the many engines entered for the trial, Messrs. Shand & Mason, and Merryweather were the principal the chief American engine entered—met with an accident a short time before the day of trial, which prevented her entering the lists on the first day. The London Times, speaking of the American fire companies in general, and the New York Fire Brigade in particular, says: "The American steam fire engines are as manh by can steam fire engines are as much be hind the steam fire engines of other countries, as that most pretentions political as-sociation, called the New York Fire Brigade, is behind any other fire brigade in Europe in real usefulness. The amateurs who constitute the fire brigade of the In the first day's trial the Times gives the superiority to the engines of Shand & Mason, whose machines got up steam from cold water in eight minutes, while the others were ten minutes in accomplishing it. They were also the first to throw their allotted quota of one thousand gallons through their target. It says, "the distance to which they projected their massive column of water vertically into the air, clearly overtopped the rather feathery shoots of their antagonists." and that the smoothness, with which their engine work ed was remarkable, while the America engine, was, or seemed to be tearing itself to pieces, and vibrated in such a manner, and exhibited such signs of straining that it appear d evident that it could never be appear of evident that it could never be relied on to work any time without breath, and the second day's first the property of the second day's first the property of the second day's first the second day's relied on to work any time without break-

Teachers' Election. The Directors of the Manchester Pab The Directors of the manchester rublic chools, at their adjourned meeting Friday, evening, elected the following teachers for the ensuing year: Principal Wm. I. Marshal. Assistant to Pripcipal Miss M.A. Woodburb. Grammar Danastmant Miss. Violet Wilson. First Department—Miss Violet Wilson. First Intermediate—Miss Lizzie McKee. Second Intermediate—Miss Luzzie McLee. Sec-ond Intermediate—Miss Matha E. Baily. Third Intermediate—Miss Lida P. Gibson. First Primary—Mary C. Pace. Third Primary—Miss Eliza E. Wilson. Fourth Primary Miss Sarah A. Druit. For New Orleans. The steamer Hiawatha, Captain Carson the Ground—Exciting Trial of Skill and Strength—The American Engines

Declared Beaten and "Nowhere."

June 30th a series of experiments, interesting in themselves, and in their result to be of the highest importance, was commenced in the Crystal Palace gardens London, with a view to test and ascertain by actual competition which is the best description of steam fire engine out of the Mississippi is once more resumed. The Staturath Rawaths, Captain Carson, was advertised to leave St. Louis for New Orleans last Saturday. This looks like as though the good time was again coming. The St. Louis merchants are in extacles to be of the highest importance, was commenced in the Crystal Palace gardens Louis for New Orleans last Saturday. This looks like as though the good time was again coming. The St. Louis merchants are in extacles to be of the highest importance, was commenced in the Crystal Palace gardens Louis for New Orleans last Saturday. This looks like as though the good time was again coming. The St. Louis merchants are in extacles that they were loading her with an abundance of freight, besides giving her a cabin full of passengers. Spread the glad tidings, the free navigation of the Mississippi is once more resumed. is once more resumed. The Hiawatha will doubtless receive a glorious reception at the Greener City at the Crescent City, ded into two classes—the small class consisting of those not exceeding 30 cwt., and the large class of those exceeding 30 cwt., and the large class of those exceeding 30 cwt., and not exceeding 60 cwt.; those weights not including coal, water, hose or other gear. The premiums were £250 for the best engine, and £100 for the second best in each class. The chief points to which the other robbed him. He had been sworn the committee directed their attention, in addition to the consideration of cost and weight, were those which relate to the gen.

Garroting.

From the Richmond Dispatch, July 14. The Charleston papers bring us some city. Thursday morning it was discovered that the enemy had been strongly reinforced both on Big and little Folly Islands, and their barges with which to make the attack on Morris Island were tied to the pile in the Creek. There were four

This was followed by two other proclamations, calling on extizens to close their places of business, and ordering the arrest of all free negroes in the city, as they were wanted to work on the unfinished defenses on Morris Island. During ed detenses on Morris Island. During the day some five or more transports appeared off the harbor, and the Yankees during the day amused themselves by shelling two points on James' Island. The Charleston Courier furnishes the following particulars of the fighting done on Friday:

day:
The morning was fair. Light, fleecy clouds floated slowly over the deep blue firmament. Not a breath of wind stire branches and the bay red through the branches, and the bay and ocean were smooth and bright as a and ocean were smooth and bright as a mirror. The air was hot, heavy and close relaxing the frame and beading the brow with drops of moisture. It was just the kind of weather to inflict the largest smount of inconvenience upon the enemy n these turneted monsters, the pride of the Yankee nation.
About daylight Friday morning. a bat tery of the enemy, of not less than fifty gans, together with about fifteen boat howitzers, mounted on the enemy's barges, and the guns from four monitors opened a tremendous fire on Capt. Mitch-

ell's battery, causing some havoc among both officers and men.

The fire from the coat howitzers was particularly destructive. The sharpshooters of the enemy also did considerable execution by picking off the men at the guns. It was by one of these that the gallant Lieut. John Bee was killed, a Minie ball striking and passing through his head. The men, notwithstanding this terrible shower of solid shot, shell and bullets, stood to their guss nobly, and it was not until they were completely exhausted, and the enemy who had landed in force were rapidly approaching, that

the order was given to re The enemy succeeded in capturing several of our men, whose exhauste dition prevented escape. Capt. J. Rav. enel Macbeth and Lieut. G. Haywood are reported among the prisoners so taken.—It was stated yesterday that Capt Mitchell was at one time in the heads of the capt. was at one time in the hands of the enemy, when his men rallied and succeeded in getting him away from his captors.— After the abandonment of the battery Capt. Mitchell's artillery men fell back with the infantry to Battery Wagner. The enemy's infantry then threw out a line of skirmishers and advanced, forming three lines of battle across Gregg's Hill to Vinegar Hill.

The 21st regiment S. C. V., Major Mc-Iver commanding and Nelson's battalion together with the artillerists, all under the command of Col. Graham, were sent for ward to oppose the enemy's forther pre-gress. A severe fight ensued, and our forces gradually fell back to Battery Wag. ner. Two desperate but unsuccessful attempts to carry the battery by assault were made by the Yankees. In both assaults the enemy suffered terribly, leaving a large number of their dead and wounded on the field. The Yankees after this fell back to Vinegar Hill. It is said they took and still hold possession of Col. Graham's former headquarters. The enemy, after talling back, received re-enforcements,

and made a show of again moving against the battery. The force of the enemy engaged Friday is surposed to have been about four thousand. Our loss in killed, wounded and missing, will probably be about three hundred.

The firm on but he was a surposed to have been about the hundred. about three hundred.

The firing on both sides ceased about half-past 6, when the Monitors withdrew. The report that one left during the engagement in a crippled condition was un-The whole four were engaged through The whole tour were engaged throughout the action, and in the afternoon their fire upon Battery Wagner was very severe. We learn, however, that the battery was very slightly injured, an officer, who observed the effect of our shots, says they struck and rolled off the sides and dasks struck and rolled off the sides and decks struck and rolled off the sides and decks of the Monitors like so many marbles or pebble-stones. Capt. Haskin's and Lieut. Bee's bodies fell into the hands of the en-emy. Drs. R. B. Hanahan and Prioleau

are said to be prisoners in the hands of the enemy.
Capt. Langdon Cheves, an accomplished and very efficient officer of the engineer corps, was killed almost instantly by a shell from a Monitor exploding in Battery Wagner, and striking him in the head.
His body was brought to the city last evening.
For Sumter opened on the turreted monsters and the Yankee infantry on the south end of Morris Island, with what result we are unable to say. The fight doubtless will be renewed to day with greater fierceness than any we have yet seen.

The enemy has certainly shown a deep laid plain, and is determined to push it.
The following is a list of the killed and wounded among the officers, Friday, on forris's Island : Killed-Capt. Charles Haskel, Capt. Langdon Cheeves, Lieut. John Bee.
Wounded—Capt. J. W. Ford, Lieut.
Alston, Capt. Wild, Capt. Thomas, Capt.

Tarrin.
Missing—Capt. Howard, Lieut. A. P.

DE. TOBIAS' VENETIAN LINISMENT. A certain cure for pains in limbs and back, sore throats, roup, rheumatism, co to ac. A perfect family medicans and never fails. Read!! Read!! Read!! Read!! A particular to the second sec SUBGEON GENERAL HAMMOND by orde ing calemel and destructive min-erals from the supply tables, has conferred a blessing on our sick soldiers. Let blue not stop here. Let him order the discontinuance of Bleeding," and the substitution of Brandreth's Pills in the place thereof. Then will come on a "new era" in the practice of Medicine, which would then become emphatically

en become emphatically
THE HEALING ABT. I have for thirly years taught that no dis action could be oured by meroury or texter emetic. That the human body could only be made whole by vegetable food — Animar food heims, in fact, condensed vegetables. Brandrath's Pil s should be in every military hospital i hese Pills cure Bitious Diarrhes, Chronic is rrhese. Chronic Pysentery, and all Forers and Affections of the Bowels, somer and more surely than any medicine in the word. Brandrath's Pills in these cases should be taken night and morning. Read Directions and get new style.

CASE OF ROSCOE K. WATSON. CASE OF ROSCOE K. WATSON.

Dr. B. Brandreth, New York;

Die: I was a private in Co. F. 17th Regiment,
New York Vols. While at flarrison's Landing,
and on the Rappalannock near Falmou h. I ard
many of the Company were sick with bilious diarrhea. The Army Surgeon did not care us, and
I was reduced to as un and bona. Among the company were quite a 1 umber of members who had
werked in your Laboratory at ring Sing. They
were not sick, because they used Brandreth's
Pills. These men prevailed upon me and others
to use the Pills and we were all oured in from
two to five days. After this our bors used Branddeth's Pills tor the typhus fever, o lds, rheumafism. and in no case did they fail to restore
health. health. I seed you for my good health, I seed you this let er, which if necessary, the entire company would sign.

I am respectivity yours,
ROSCOE K. WATS JN. Sing Sing, N. Y. Principal office, 194 Canal street, New York.

The American engine was literally no where, and, except during an occasional epart, fifty feet was about its maximum. As the jets were kept close up, parallel with the tower, and only distant from it a comple of feet, it was quite easy, by a comparison with the stories of the tower itself, each of which is twenty feet high, to estimate almost to a foct the height each jet was thrown. The united efforts of all the aczeles of course came down in a perfect cataract of water. This last effort, which was exceedingly beautiful to witness, brought the trial to a close. It was a very general opinion that Mr. Merryweather
