Another Fire.

Yesterday morning about one o'clock, the frame buildings, belonging to William and Thomas Hines, butchers, in the Ninth Ward, were discovered to be on fire. They were totally consumed, together with a lot of hides, &c., stored in an adjoining shed. While this fire was burning, another was discovered in the packing department of James McCully's Glass House, about one hundred yards distant. Both of these fires were doubtless the work of incendiaries.

Railroad Accident.

Yesterday about noon a terrible accident occurred at the depot of the Penn'a. Central Railroad, which resulted in the death of a young man by the name of Jas. Boden. From all the information we could gather it would appear that he had just eaten his dinner, and had sit down on the rail, where he had fallen asleep. The engineer backed the train into the depot, and it passed over him, crushing his legs in such a manner as to cause death to ensue from hommorhage about 4 o'clock.—Boden was about 30 years of age and unmarried. He had a brother who was killed by the explosion of a boiler in Wallace's marble works some time ago, and but one brother now remains.

U. S. District Court.

The application of Mrs. Ballard for the release of her son, on a writ of *habeas corpus*, was yesterday quashed in this court, the return stating that he was not in the custody of the Provost Marshal, or other officer.

The case of Henry Shriver came up for a hearing yesterday. Shriver had been drafted and had made application for exemption on the ground that he was the only son of a widowed mother, and was not liable to military duty. On these grounds he was discharged, but afterwards the Board having reason to believe that he had sworn falsely, reversed their decision, and he was taken into custody. The case was based upon the ground that the Board had no authority to reverse the first decision. Board sustained, writ quashed, and Shriver given into custody.

Smash Up.

Yesterday evening a horse attached to a buggy starding in front of Charlotte Blume's music store on Fifth street became restless, and notwithstanding the efforts of a young man who was holding him he broke loose, and turning round ran against the lamp post on the south-west corner of Fifth and Wood streets, upsetting the vehicle, breaking both shafts and one of the hind wheels, and splitting the dash board. After getting loose from the buggy he ran to the corner of Wood st. and Virgin alley, where he stopped of his own accord.

What it Says of Them.

The editor of the Wayne Daily *Sentinel* has been paying our city a visit, and on his return he thus speaks:—On our recent visit to Pennsylvania, we, with others from our city, stopped off at Pittsburgh a day or two, and while there were highly entertained by the Vigilant Fire Company, who it will be remembered, paid our city a visit on the 4th of the present month. Too much cannot be said on behalf of the noble boys composing the Vigilant. They admirably sustain their *eclat* at home as well as abroad. They did up the thing nicely for us while in the Iron City, and their many kindnesses to ourself and others while strangers in a strange land, will ever be remembered with a grateful heart. Especially are we indebted to Messrs, Miller, Irvin, Barber, Robinson and Officer, members of above Co., for showing us the sights of the city. Under their guidance and protection we were escorted to Fort Pitt, the Water Works, Arsenal, Fortifications surrounding the city, and the Allegheny Cemetery, all of which were highly interesting and entertaining to us. The Cemetery, embracing as it does, upwards of 300 acres, is one of the most magnificent spots it has ever been my pleasure to look upon, and of itself speaks volumes of praise in behalf of the energy and enterprise of the citizens of Pittsburgh. When our weary "form" is "locked up" in the cold embrace of death, there is no place on earth that we would choose to sleep our last long sleep sooner than in the Allegheny Cemetery.

Many other things there were that attracted our attention, of which we would speak had we the space to do so.

The following record, which was furnished us by one of the members, shows that the Vigilants are in favor of a "vigorous prosecution of the war," and speaks of itself, in *acts*—not words—of what they have done, and are still willing to do in defense of their country. They have in three month's service—two Colonels, one Captain; four Lieutenants; four Sergeants; six Corporals, and 39 Privates. Loss—none

In nine month's service, two members. Loss—none.

For three years or during the war, 40 members composed as follows: 5 Colonels; 4 Majors; 7 Captains; 1 Adjutant; 5 Lieutenants, with rank of Colonel, 1 on Halleck's staff; do Lieut. 1 on General Hawes' staff; 5 Sergeants; 11 Privates.

They have lost on the field, 1 Colonel, 1 Major, 3 Captains, 1 Lieutenant, 1 Sergeant. By disease, in hospital, 1 Private.

Thirty six of the company, since their late visit to our city were drafted. After their former record, the drafting of the boys by Uncle Sam was certainly very unkind.

Birth in the Jail.

Miss Beatty, who it will be remembered shot and killed her seducer a few months ago, and has been in jail ever since, gave birth to a son in her cell yesterday morning.

Robbery at the Chronicle Office

Yesterday morning a young man in the employ of the *Chronicle*, was arrested for robbing the money drawer, and sent to jail. When found, he was hid away under the desk in the counting-room. The money taken (between three and four dollars) was found on the floor near where he was secreted.

A New Launch.

A little low water steamer was launched from the stocks, on Smoky Island, day before yesterday afternoon. She is built with square knuckles, and will be of the lightest draft.

Circuit Court.

John Kiersch was yesterday taken before Judge McCandless on a writ of habeas corpus, sued out by his father. The writ was quashed on the ground that in the return, Capt. Wright stated that Kiersch was not in his custody.

A similar writ, sued out at the instance of Mrs. Sweeny for the body of her son Cyreneus Sweeny was quashed for the same reason.

Funeral of Captain James D. Brown.

The members of the 62nd regiment now in the city, turned out yesterday afternoon to attend the funeral of Capt. James D. Brown, late of that regiment, Company A. They were accompanied by a regimental band of music.

Oil Market.

A sale of 16,000 barrels of crude was made yesterday afternoon at 21 cents, barrels returned.

Spread Eagle Advertising.

There is nothing in the world like printers-ink to let the people know what you have got, or what you are going to get.—Barnum attributes his first good fortune to the magical influences of the art preservative of all arts, and the Campbells are following in his illustrious footsteps. The immense spread eagle show bills in front of the theatre will attract the notice of every body, and the Campbells themselves, who will appear at the Theatre on Monday night will attract the attention of every body else.

Trimble's Varieties.

This popular place of amusement having undergone a thorough renovation, inside and out, is now open with an entire new troupe of actors. The new drop curtain is worth seeing.

Personal.

Mr. Wm. Lomax, of the firm of C. J. Fell & Brother, Spice Merchants, Philadelphia, arrived in town yesterday and is stopping at the Monongahela House.—He will remain in the city but a short time, and any orders that may be left with him, will receive, as usual, the most prompt attention. He offers great inducements to buyers.

More Rain.

We had another delightful shower yesterday morning.

Continental Monthly.

J. W. Pittock, opposite the Postoffice, sends us the August number of this Magazine. It contains a number of valuable articles that cannot fail to attract attention. The article on Jeff. Davis and Repudiation, by R. J. Walker, is worthy of perusal. It must be read to be appreciated. Price, 25 cents per copy.

A Pen for Everybody.

Miner's new Aluminium does not corrode, and maintains its fineness of point and flexibility to the last. It is the cheapest, best, and most desirable pen ever brought out, yet it costs but twenty cents a dozen. Everybody should have some of them.

"Sporting Papers."

Friend Pittock sends us all the sporting papers, incuding Wilkes' Spirit and the Clipper. They contain a large amount of sporting news, foreign and domestic, but neither of them contains an exceptance of Hamill's challange to Ward to row on any river where Hamill would have a show to win.

Hotel for Rent.

The "Massey House," located on the corner of Ross and Breckenridge streets opposite the Pittsburgh and Connellsville Railroad Depot is now offered for rent. The "House" is in good repair and has been doing a good business. To any person understanding the business a fine opportunity is now offered. Immediate possession will be given. Apply to

THE PRINCIPAL GUNS SILENCED

Rebels Quite Exasperated.

TROUBLE WITH THE INDIANS.

&c., &c., &c. &c.

NEW YORK, July 30.—Brig. Gen. Strong died this morning from wounds received at Fort Wagner.

A Washington correspondent states that the President will visit New England soon.

By passengers by the Cosmopolitan it is learned that the principal guns of Fort Wagner have been silenced. Reinforcements is said to have reached Gilmore besides several 200 and 300 pound parrott guns. The rebel officers are exceedingly exasperated at being attacked by the Mass 54th, and on being asked for the body of Col. Shaw, the rebel reply was "he has been burned along with his niggers." Offensive operations by Gen. Gilmore are being actively prosecuted.

NEW YORK, July 30.—The gunboat Paul Jones arrived this morning from Charleston Harbor. On Sunday evening she was ordered here for repairs, being leaky and having burst her 100 pounder on the 18th. The siege of Fort Wagner continued when she left. Gen. Gilmore had succeeded in erecting a battery of heavy siege guns within 1,000 yards of the fort, and every thing was progressing favorably.

Sumter and Fort Johnson on James Island kept up a continued fire on our forces, but the casualties average but 500, about six per day. The troops and navy are in fine spirits.

NEW YORK, July 30.—The Tribune correspondent says our entire loss in the late assault on Fort Wagner, according to official report, is 1617. The rebels claim to have buried 650 of them.

This extraordinary proportion of killed could only have been reached by the most indiscriminate slaughter.

The members of the 54th Massachusetts regiment (colored) are not to be given up to us, and unofficial reports say that the negroes have been sold into slavery, and the officers treated with unmeasured abuse. In fact all our wounded at Charleston have been treated most barbarously. Opportunities to amputate were eagerly seized upon by the rebel Surgeons, and it was performed in cases of the slightest gunshot wounds.

On the left our batteries were advanced six hundred yards nearer Sumter on the 25th, and six 200 pounders placed in position.

CHICAGO, July 30.—The special dispatches from St. Paul says: Reports from Capt. Fisk's expedition state that positive information has been received of the complete discomfiture of Little Crow and the desertion of all his followers but one, and his flight to Yellow Stone, beyond the Missouri river. The other chiefs are awaiting an opportunity to surrender themselves and their warriors.

CINCINNATI, July 30.—Morgan and several of his officers arrived at Columbus this afternoon and were lodged in the Penitentiary; after searching and bathing were conducted to cells where they will be confined according to the rules of that institution.

PHILADELPHIA, July 30.—Among those who were drafted to-day, were three more Telegraphers, making 15 in all from the American Company, including the Assistant Manager.

PHILDELPHIA, July 30.—The Subscription Agent reports the sale, to day, of $1,558,450 of 5-20's.

The Unfaithfulness or the Ignorance of the President.

In his remarkable letter to the Ohio Deputation, refusing to accede to their request to annul his unconstitutional and illegal banishment of Mr. VALLANDIGHAM, President LINCOLN said:

"We all know that combinations, armed in some instances, to resist the arrest of deserters, began several months ago; that more recently the like has appeared in resistance *to the enrollment preparatory to a draft*; and that quite a number of assassinations have occurred from the same animus. These had to be met by military force, and this again has led to bloodshed and death. * * * * * * These things have been notorious, known to all, and of course known to Mr. Vallandigham. Perhaps I would not be wrong to say they originated with his especial friends and adherents. With perfect knowledge of them he has frequently made speeches in Congress and before popular assemblies; and if it can be shown that with these things staring him in the face, *he has ever uttered a word of rebuke or counsel against them*, it will be a fact greatly in his favor with me, and one of which, as yet, I AM TOTALLY IGNORANT."

Here it will be seen that the President states that if Mr. Vallandigham has ever uttered a word of rebuke or counsel against resistance to the draft, "it will be a fact greatly in his favor with me, (the President,) and one of which he is totally ignorant." He is ignorant or unscrupulous. On the 9th of March, 1863, there appeared in the New York *Times*, a Republican paper of large circulation, the following card

"NEW YORK, March 8, 1863.

"To the Editor of the New York *Times*:

"Allow me to say that the statement of your reporter that I denied that we owed any obedience to the Conscription Act, and your own that I counseled resistance to it by the people of the North, are both incorrect. On the contrary, *I expressly counseled the trial of all questions of law before our judicial courts, and all questions of politics before the tribunal of the ballot box.* I am for a free discussion of all measures and laws whatsoever as in former times; but for forcible resistance to NONE. The ballot box, and *not the cartridge box*, is the instrument for reform and revolution which I would have resorted to. *Let this be understood.*

C. L. VALLANDIGHAM."

This card, in connection with the extract above, shows how completely the President has misrepresented Mr. Vallandigham, and that, in order to make a case against him on his own premises, he has resort to a direct and *unmitigated falsehood*. This certainly completes a most shameful record of the President.

The Field of Antietam.

A correspondent with the army of the Potomac, writes:

The field of Antietam has lost all trace of last year's desolation, and smiles with golden wheat, scented clover and luxuriant corn. A close examination may perceive a torn tree, but that is all. A little way to church or school house still stands, perforated with balls, and inwardly defaced by the rude drawings and senseless inscriptions of soldiers, both rebel and Union.

ARRIVAL OF ARMS FROM VICKSBURG.—The steamer Metropolitan arrived from Vicksburg last evening, having on board 25,000 stand of small arms and 26 pieces of artillery. She also brought the 10th Kansas regiment from Cairo. The Metropolitan has been absent from this port eight months in government service.—*Mo. Republican*, 23d.

THE comb is henceforth an obselete article in English fashionable circles, and ladies are reverting to the Lady Godiva style of wearing the hair—that is letting it flow down over the shoulders. Little girls having abandoned the once popular net, now have their hair crimped and then allowed to float loosely down the back.—When the hair is of light auburn or golden hue, it has a pretty effect, reminding one of early English maidens with names like Maude and Mary, who used to live in the days of the Round Table.

A NEW DODGE.—The Bristol county (Mass.) *Republican* states that a draftee man from Rhode Island has called upon the clerk of the courts at Taunton, for a copy of the record of his conviction of a felony several years ago. It will, of course exempt him.

"I HOPE to live to see the day," said Lord Brougham, "when every peasant in England can understand Newton." "Wouldn't it be better that they had a little *bacon* first?" inquired Cobbett.

PITTSBURGH MARKET.

WEEKLY REVIEW.

Carefully Revised and Corrected by our own Commercial Reporter.

OFFICE OF THE SATURDAY MORNING POST, PITTSBURGH, August 1, 1863.

We have no improvement to notice in trade generally. The demand for the leading articles was only moderate. They present few changes worthy of notice. The weather since our last was changeable, with occasional showers. The season so far has been extremely healthy. The rise that was expected in the Allegheny came off and enabled a large quantity of oil to reach this market. The news from the Union armies continues favorable. Since the fall of Vicksburg and Port Hudson the Mississippi has been thrown open to commerce from St. Paul to the Gulf of Mexico. The Imperial has made the round trip from St. Louis to New Orleans and back. She arrived at the latter port on Tuesday at 9 A. M., amidst great rejoicings, especially of the mercantile classes. The St. Louis *Republican* says, "the free men of the West have forced this passage to the mouth of the Mississippi against a mighty host of enemies; and, because we are entitled, on account of our sacrifices and our valor, to the uninterrupted navigation of this great highway of commerce. Let the cannons roar! Let the shouts go up! Let it be proclaimed everywhere that there is once more free and uninterrupted navigation of the great river that pours its waters or thousands of miles and is looked on by millions of people! Let it be understood that the people of the great Valley are in earnest in demanding an uninterrupted transit on this river for all their productions."

Money matters present few changes. In New York the rates vary daily. Money in our city is readily obtained at low rates on good security.

Flour—We have no particular change to notice as regards this article. The sales were restricted to operations for the city trade. The supply is not large, while the receipts are confined pretty much to lots by wagon. Grain we hardly know how to quote as the demand was purely local with only a few car loads changing hands at previous rates. The stock is light, but sufficient for all present purposes. Groceries—The demand has improved, especially for sugar. Molasses remains about the same while coffee sells lower. The stock is not large, but sufficient for all present purposes. Salt—The market was firm at a further advance the supply in first hands being small. Bacon—has advanced during the week, and is now held at higher figures. For particulars see another part of this report.

Ale.—The following are the new rates set by the manufacturers:

Butter scarce and in demand. Sales roll a 14@16c. Prices unsettled.

Bacon—We noted in our last review that the market was more firm. Since that date prices have advanced one half to one cent on certain descriptions, with an active demand and no advance. The stock in first hands is not large. Among the sales were 10000 lbs shoulders; 7½@8½c; 20500 lbs plain hams, 9@9½c; 10 000 lbs sides, 6½@7c; 2,000 lbs at 10@10½c.

Eggs—The receipts have largely fallen off, and prices have stiffened. We note sales at 10½@11 ₰ doz.

Fish—The demand has fallen off, the brisk season being over. The current rates were as follows: No. 1 Mackerel, sales at $14; No. 2 at $10 50; No. 3 Large at $4 75; No. 3 medium at $7; Herring, sales of new Baltimore at $7 2 @7 50; Halifax, $6; Lake Fish ₰ bbls at $5; White Fish do at $6 25.

Rice—sales 25 Sacks; 9½ per pound an advance.

Grain—The market during the week was changeable. The demand, however, was limited. The principal business done was in a small way. The receipts were rather light during the previous week. The current rates were as follows: Wheat—sales of prime red, $1 15@1 20, an advance; white was held at $1 25@1 30. Corn was in better demand with sales at 69@70c. Rye dull at 75c. Barley was neglected altogether; we omit quotations. Oats we note sales at 65@68c, the latter figures from store.

"GENERAL GRANT"

Is the name selected for Capt. John Woodburn's new and splendid steamer, just finished at our landing. This boat was built under the superintendence of her commander, who has had a good deal of experience both as builder and captain. For beauty of design and general adaptation as a light draught steamer she has no superior. In fact Captain John has done his best in building and fitting out this boat. The hull was built at Monongahela City, length, 157 feet; beam, 31 feet; hold, 4 feet. The engines were built by Messrs. R. Lee, cylinders, 13½ inches, 4 feet stroke; 2 boilers, 38 inches in diameter, 20 feet long; each boiler contains 6 flues. She is also furnished with all the latest and best improvements. In fact nothing that money could do has been left undone in order to make her what she is—a first class packet. The cabin was built by Mr. W. Richardson; the design is new and handsome; workmanship of the highest order. She is a credit to all concerned in getting her up. The upholstering was furnished by Mr. E. Edmundson; painting by W. Lee.

The outfit was furnished by Messrs. Caldwell & Bro. The furniture was manufactured by C. B. Young & Co. expressly for this boat and is of the best description. The blacksmith work was done by Mr. G. Gumbert. The Gen. Grant is just like her namesake, a great success. Capt. Woodburn has done himself honor in naming his boat after so worthy a type of a true American soldier, whose name will live in history as long as water runs and will forever be connected with the opening of the great Mississippi river in 1863. We wish the handsome steamer Gen. Grant and her clever commander success, and trust the two worthies may be represented at the same time.

We consider the Gen. Grant a complete boat in every respect; Capt. Woodburn deserves credit for building such a craft. The owners name the trip for St. Louis on Saturday. Her draught of water is only 14 inches; success attend her, say we.

By the way, we were pleased to see our young friend, G. H. Ernst, in the office. He is an excellent clerk and will be ably assisted by B. F. Young. We take pleasure in recommending both.

For Cincinnati, Louisville, Evansville, Cairo, St. Louis, Galena Dubuque and St. Paul.

THE NEW AND SPLENDID Passenger steamer GENERAL GRANT, John Woodburn commander, will leave positively for the above and all intermediate ports announced above. For freight or passage apply on board or to
