CITY AND NEIGHBORHOOD INTELLIGENCE

Reaping the Fruits. For the past three nights the city has been without any night watch. The con sequence is that we are in possession of two items which under other circumstan-ces would have been lost to us. The first is the attempted robbery of the Jewelry Store of Mr. W. Stevenson, No. 320 Liberty street, which took place about hal pass one o'clock yesterday morning. The large plate glass was broken in, which aroused a young man sleeping in the store, who siezed his revolver and rushed forward who siezed his revolver and rushed forward to ascertain the cause. Upon opening the door, he saw a man who called himself a watchman standing near it. The would bewatchman appeared to know as little about the affair as the clerk. Nothing was taken, although quite a number of valuable articles were in the window at the time. Yesterday morning, between quarter was proken, and a rine valued at the was taken from the window. Mr. Young had been at the store at quarter past two, and every thing was at that time safe. This is the second time within a few days that this store has been robbed. On Saturday this store has been robbed. On Savan, morning a pane was broken, and two guns, a rifle and a double barreled shot gun, the eyg. were taken. What amount of deviltry will be carried on now that the city is unprotected, remains to be seen.

Slowly Recovering.

The young lady who was so brutally injured by a man calling himself Smith, near Wilkingburg, last week, is recovering slowly. Her throat is terribly injured, and very much swollen, and her body is badly bruised. Her brutal treatment also appears to have affected here in the latest appears to have affected her mind some what, although her relations think that she will be fully restored in time. One of her uncles informed us that if the ruffian Smith could be caught, that he and his brother would not only pay all expenses the party making the arrest may be subject to, but would also pay any reward that might be demanded. We sincerely hope that the scoundrel may be made t feel the weight of justice.

The Gettysburg Cemetery. Eight other states have united with Pennsylvania ir purchasing a portion of the battle field at trettysburg for a Ceme-tery. The removal of the dead by their tery. The removal of the dead by their friends during the months of August and September, has been forbidden. This order has been misinterpreted by some.—Yesterday evening a young Irishman whose brother had fallen upon that field, piecoed simplemental through the last pierced simultaneously through the head and heart by rebel lead, called upon us, and informed us that the Quartermaster at this place had told him that he would not be allowed to bring him away at all, but would have to allow him to remain where he was. The Quartermaster's direction or orders were most probably giv en with reference to the above order, which as we understand it only refers to the months before mentioned, and is only intended as a sanitary measure. Persons having relatives that they may wish to remove from that field, would do well to

inform themselves in regard to the matter. Man Shot at Wheeling. The Wheeling Register says: Mr. John Houston, a member of Capt. Smith's U. S. Ringgold Cavalry, was shot at the Atheneem about 11 o'clock Saturday night.—It appears that about about 9 o'clock each stranger than prisoners are remired to reevening the prisoners are required to retire, and the sound of the drum notifies them of the arrival of that hour. Houston was running around, the prison till after ten o'clock, when the guard called the attention of the corporal to the fact.

The prisoner was ordered to his bank, but was out running around again to few. The prisoner was ordered to his bunk, but was our running around again in a few minutes. Having taken off his shirt and all his clothing, except his pants, he began to crawl around on the floor on his hands and knees. The guard told him if he did not go to his bunk he would shoot him.—
He was soon in the bunk again, but in a few minutes raised up, when his shirt dropped on the floor. He was in the act of climbing down from the bunk, when the guard (a Mr. Coates) fired, and the ball entered his right arm, passing through his entered his right arm, passing through his body and coming out under his left arm.— He fell to the floor, and expired in about

three minnies.

The deceased was a man of about forty five years of age, and resided near Taylorstown, on the Hempfield Railroad, Taylorstown, on the Hempheld Mailroad, where he leaves a wife and five small chitdren. It is said, by members of the same company who are also confined in the Athenaeum, that Houston was subject the Athenaeum, that House while he was to fits, having taken several while he was out in the field with the company. The story seems to be a true one, as it is hard-ly possible any sane man would wander through a room, taking clothing, etc., from his fellow prisoners while they were lying awake in their beds.

Capt. Thorp, commander of this post, ordered a court martial, which tried the prisoner (Mr. Coates) yesterday morning. The evidence and the decision will be sent to General Brooks, at Pittsburgh, who will approve or reject it. will approve or reject it.

Weather.

A double trame dwelling, at New Castle, Pa., owned by the Croton Glass Company, and occupied by John Canfman and Albert Cooley, was destroyed by fire on Monday last. Mr. Caufman's furniture was nearly all destroyed—Mr. Cooley saved some of his property. There was a light insurance on the building, but none on the furniture. It is supposed that the on the furniture. It is supposed that the fire originated from some defeat in a flue.
