EQA 900. SYRUP OF MARDRAKE AND STIL-Having had a man employed for the last six years compounding the above excellent remedies for my own practice, and having used them with uncommon success in all that time, I feel it a duty to set them: before the public, as mytexperience leads me to think they are as near specifics as any remedies well can be for the following diseases, namely: Scrothus, Ceitre, Syphilis, and all diseases that srise from an impurestate of the blood. One trial will convince any person of their finess for those diseases.
