DAILY POST. THE COMDICION OF THE SOUTH.

Curious Contribution to the South: ern Accounts of the War.

[The following is furnished for publi cation by a citizen of Georgia, who recently left that State and is now in Cincinnati. He desires no personal notoriety been and are in the army, without referand would not have his name made public but it is a name not unfamiliar with the history of Georgia. Combined with some will find much that is instructive, and some statement of facts that are of im-Condition of the South and Feeling of the People.

I am a native of that noble but unfortunate South, and, in writing what I will shall be blamed by many, both North and South; but I am now an old man, and have never feared nor regarded the opinion of men who found fault, unless I telt that they had a right to do so. I write for the sake of truth only, and I am not, without some credulity that candid men will at least say that I am faithful. I am not disposed to name them, but many have written and made speeches throughout the country since the war be-gan, and have poisoned the public mind in a degree in the North and embittered gan, and have poisoned the partial in a degree in the North and embittered in a degree in the North and embittered Southern men—what their object has been is with them and the God—but to my own knowledge they have not acted in fairness to the country, and if, by their acts, one man's blood has been shed, I never can forgive them. The people North, East, this course will weaken the Southern army. To overthrow Atlanta is the point that should at first be regarded as the car, dinal point: it is the corps of the whole countrymen and women, and I love them, and if were to consult my feelings in their errors. I would persuade them to do so no more; but the bright doctrine of our Saviour, shown in the case of the sinning to constitution be regarded and men cannot be kent in the Southern army.

The feeling of Southern men should not be weighed by the say so of every bar room brawler and sycophant who comes to the North Form the South that of a brother. DO YOU WANT A GOOD APPETITE!

He put me in the to-bacco factory with Col. Cochran, Ely, and a host of federal soldiers, on suspicion and left me there until he was forced to elease me by public sentiment. Now, what can a people hope for with such a man to rule? And how great is the obligation of the government, to rid a mis guided people of such a monster? I cannot leave this connection without reference to the brightest gem ever reflect-ed from the purest rays in the diadem of

He is Vice-President of the Southern Confederacy, it is true, but to this minute he is U.S. it is true, but to this minute he is a Union man. I was born and raised within eighteen miles of him, and no man knows him better than I do; we toiled together for the Union, but when Toombs and the cobs kicked noble Georgia out of the Union he felt it was his duty to play a part That part shall only be known to that God who caused the shadow to fall upon the dial of Ahaz.
